

.Net Developer (Support) Poland

[Apply Now](#)

Company: OpenSky Data Systems

Location: Poland

Category: computer-and-mathematical

Role: .Net Developer **Location:** Poland (Katowice or Poznan optional) Hybrid role. We are seeking a .Net Developer to join our Support Services Team in Poland. As a .NET Developer, you'll be part of our team working on web projects for the public sector in Ireland. The ideal candidate will enjoy problem solving and troubleshooting across different applications & customers and be proficient in the development/fix of web-based information management systems using C#, .NET and SQL Server. We're looking for a web developer eager to combine established .NET solutions with innovative advancements to create standout online experiences. If you're passionate about impactful web development and public sector innovation, we want you on our team.

Your Responsibilities

- Creation & Implementation of new or modification of existing modules of product software
- Providing ongoing maintenance, administration, conservation, preservation, updating or products software
- Contacting customers by JIRA, emails, online meetings and providing feedback
- Diagnosing and resolving identified problems
- Testing, verification of compliance and safety of products software
- Creating and updating product technical documentation.
- Providing consultations concerning creation, development and improvement of app architecture.

Requirements

Experience in the following areas is required: C# / .Net / ASP.Net / ASP.Net MVC / .Net Core / Azure / MS SQL / Web API / JavaScript / GIT / Entity Framework / Design Patterns / SOLID / JIRA

Must have excellent English, both written and verbal

Must have Excellent Polish, both written and verbal

Must be a strong team player

Working with Major Organisations: Working with large private & public agencies in Ireland and the UK, we transform the way businesses manage their operations, their

customers and their people in Healthcare, Housing, Environment and Pharmaceutical industries. Delivering Projects that Matter: The work we do impacts the lives of people in Ireland every single day. Some examples of our current & long-term projects are;- A system to manage displaced persons such as the homeless and refugees in Ireland. (Dublin City Council)- National Doctors Training & Planning management system (HSE)- The Fair Deal Scheme platform that manages €1bn of financial support to those in nursing home care. (HSE)- Ireland's mandatory tenancy registration platform for landlords and tenants (Residential Tenancies Board)- Ireland's taxi regulation system managing 90k inspection audits per year (National Transport Authority) We deliver a strategic partner experience to our customers who see us as an extension of their team, embedded in their organisation for the long term.
