- Collaborate with external tax consultants in preparation of tax filing and other declarations

- Collaborate with other departments to ensure timely, accurate, and reliable exchange of information

- Perform reconciliations with headquarters and other group subsidiaries

- Take part in Account receivable and inventory management

Management report and performance analysis

Your profile

All right, all right, so I hope you are now aware of what is up for you, what background should you have in order to feel comfortable with this role? Keep in mind it`s all about electrical equipment, that`s why it is essential for you to have:

Bachelor or Master`s degree in accounting, finance, business administration or equivalent

At least 3 year of relevant professional experience in the accounting or similar role of the financial area, preferably in multinational companies or Big four auditing firms

Familiar with Poland GAAP and IFRS, Polish tax system and transfer pricing

Highly proficiency in spoken and written Polish and English (at least C1 level). Chinese is a plus

Familiar with MS Office, especially excellent Excel skills

Prior experience in SAP or other ERP systems is a plus

Strong team player with good interpersonal skills

Why us?

This decade might be overshadowed by Covid19, but sooner or later we will beat and overcome that son of a germ, am I right?

But the true topic for this decade lies in energy

We are more than happy to state that not only We are leading this discourse, we also offer the fitting solutions for it. We have the strongest PV-Inverter R&D there is and became the world`s biggest Inverter Manufacturer, which we are extremely proud of!And now, for this decade, we are increasing our game, and You, You might become part of it! Besides that, many things await You:

Opportunities for Career advancement

Bonus payment based on pre-agreed and signed KPI agreements

A multinational team awaits You with lots of european and transeuropean exchange!

Possibility for technical and commercial knowledge increasement in regard to string inverters, central inverters, inverter stations including transformer and switch gear and storage solutions

Technical and commercial training in our headquarter in Germany and even visits to the big R&D facility in China!

About us

We are a green tech company with young creative minds.

We are fighting every day to make our mission **CleanePower for All**

With ~400GW of clean power presently installed worldwide, we are on the road to success!

Founded in 1997 by University Professor Cao Renxian, Sungrow is a leader in the research and development of solar inverters with the largest dedicated R&D team in the industry and a broad product portfolio offering PV inverter solutions and energy storage systems for utility-scale, commercial & industrial, and residential applications, as well as internationally recognized floating PV plant solutions, NEV driving solutions, EV charging solutions and renewable hydrogen production systems.
