

AI Software Solutions Engineer

[Apply Now](#)

Company: Intel

Location: Gdańsk

Category: computer-and-mathematical

Job Description

Habana Labs is a group at Intel that focuses on developing disruptive solutions that will shape the future of AI and Deep Learning computing. In this position you will work with an experienced software engineering team on developing software solutions integrating our proprietary software stack for hardware deep learning accelerators with the most popular deep learning frameworks. We are looking for a dynamic and motivated engineer to join our team.

Qualifications

Required qualifications:

Python programming experience;

C++ experience and proficiency in software engineering practices;

Experience with creating highly optimized software and algorithms design;

Strong problem-solving and can-do attitude;

Familiarity with working in Linux environment, no need to have administrative skills;

Creativity and ability to think out of the box.

What we offer:

At Intel, we offer a collaborative, supportive environment, where your equally brilliant colleagues will push you to be your best. There's no fear of failure - we know that's how innovation happens, and you'll never be bored.

We offer competitive benefits and pay, opportunities for professional development and the flexibility you need to achieve balance. Intel fosters a collaborative environment allowing the brightest minds in the world to come together to achieve exceptional results.

Competitive pay and Benefits:

Including stock programs, Quarterly Bonuses, Employee Pension Plan, Medical plan and life insurance, Peer to peer recognition, Lunch card, Multisport Card/Holiday card, Groups of enthusiasts, Exclusive employee discounts, (online) events and many more.

Opportunities for professional development and growth:

You will work in an international environment within a group of the best professionals in the world, working with the newest technologies. You'll have a chance to take part in advanced development programs, conferences and have free access to a wide library of classroom and online courses, covering both soft and technical skills.

Life and Community:

We offer opportunities for employees to refresh and recharge- flexible working time, benefits and services that support your wellbeing, and the chance to participate in Intel's Great Place to Work program which gathers people who love running, cycling, squash, tennis, cross fit, photography, and many more.

Our internships offer students a chance to get real-world experience through participation in projects from day one, as well as the opportunity to develop a wide network of industry contacts.

We guarantee you will be working in a safe environment, in an organization which profoundly understands the current health situation worldwide. At both our offices and in your home, the security and wellbeing of you and your family is our utmost responsibility.

Materials important for you - to learn more about Intel.

Learn more about Intel in Poland:

The Data Center & Artificial Intelligence Group (DCAI) is at the heart of Intel's transformation from a PC company to a company that runs the cloud and billions of smart, connected computing devices. The data center is the underpinning for every data-driven service, from artificial intelligence to 5G to high-performance computing, and DCG delivers the products and technologies—spanning software, processors, storage, I/O, and networking solutions—that fuel cloud, communications, enterprise, and government data centers around the world.

Posting Statement

All qualified applicants will receive consideration for employment without regard to race, color, religion, religious creed, sex, national origin, ancestry, age, physical or mental disability, medical condition, genetic information, military and veteran status, marital status, pregnancy, gender, gender expression, gender identity, sexual orientation, or any other characteristic protected by local law, regulation, or ordinance.

Benefits

We offer a total compensation package that ranks among the best in the industry. It consists of competitive pay, stock, bonuses, as well as, benefit programs which include health, retirement, and vacation. Find more information about all of our Amazing Benefits

This role will be eligible for our hybrid work model which allows employees to split their time between working on-site at their assigned Intel site and off-site. **In certain circumstances the work model may change to accommodate business needs.**
