[Apply Now](#)

Company: Advisory Group TEST Human Resources

Location: Kraków

Category: other-general

Lufthansa is the largest airline in Germany and one of the leading airlines in the world.

As the Lufthansa Group Business Services' employee you will become part of the organization that supports the aviation business. Our teams handle accounting, look after our customers' employees, run procurement processes and take care of IT applications.

Everything contributes to a great travel experience for Lufthansa Group customers.

Region: Kraków, małopolskie

### **What we are looking for:**

Master/Bachelor degree in Economics, Information Technology or similar

Min. 3 years of experience with responsibility for business-critical IT applications

Good functional and technical knowledge of procurement tools will be an asset

Business intelligence skills in the field of procurement

Project management skills

Good knowledge of SAP will be an advantage

Good command of English both written and spoken

Diligent, independent and systematic approach to work

Strong analytical and conceptual mind set

Numeric skills

Flexibility and adaptability

Team player

Service orientation

Strong technical knowledge to drive automation

**Responsibilities:**

We're in search of a proactive Procurement Tool Manager with a wealth of experience to join our dedicated team. In this role, you'll oversee the strategic implementation, management, and optimization of our procurement tools and systems on a global scale

Your contributions will be vital in enhancing efficiency, streamlining workflows, and ensuring compliance across our procurement operations. You'll also be responsible for managing the budget allocated for procurement tools and related initiatives, making strategic decisions to optimize resource allocation and maximize return on investment

Beyond budget management, you'll provide strategic guidance on key transformation initiatives aimed at modernizing procurement processes and facilitating organizational growth. This may involve leading digital transformation projects, reengineering processes, and implementing new technologies to drive innovation in procurement operations

You will lead the implementation and integration of new procurement tools and systems, ensuring seamless adoption across various departments and stakeholders and collaborate with cross-functional teams to define requirements, customize configurations, and optimize workflows to enhance efficiency and user experience

The role is responsible for oversee the maintenance, administration, and regular updates of existing procurement tools and systems, ensuring optimal performance, data integrity, and system reliability

You will also develop and deliver comprehensive training programs and materials to educate users on procurement tools, processes, and best practices

Ensure adherence to regulatory requirements, industry standards, and internal policies governing procurement processes and data security

Collaborate with vendors and third-party service providers to evaluate product offerings, negotiate contracts, and manage vendor relationships effectively
