

AVP Financial Engineering – Senior Python Developer

[Apply Now](#)

Company: HSBC Service Delivery

Location: Kraków

Category: business-and-financial-operations

Some careers shine brighter than others. If you're looking for a career that will help you stand out, join HSBC, and fulfil your potential. Whether you want a career that could take you to the top, or simply take you in an exciting new direction, HSBC offers opportunities, support and rewards that will take you further.

Your career opportunity

Global Finance aspires to be the best finance function in the financial services industry, delivering powerful insights to our customers, within the bank and externally. We work as a seamless team to support HSBC's businesses to deliver our strategy. This role is focused on building new, future-proof modelling solutions.

What you'll do

Build and implement Global Treasury Python-based modelling solutions.

Support building and implementation of Global Treasury containerised solutions and CI/CD automations.

Deliver a coding environment that is easy to use, is robust and can be fully re-used.

Provide automated solutions for fast and agile model build and deployment.

Work closely with tech leads, business stakeholders, Quantitative Analysts and IT to create synergies across different functions and departments and contribute to the end-to-end

design and planning.

Implement software strategically, following best practice to ensure that solutions address the evolving business and regulatory requirements.

Work closely with the Head of Financial Engineering to ensure smooth change management and maintenance of the system in compliance with HSBC Group standards.

Work closely with the Quantitative Analytics teams to build software solutions that are practical, workable and comply with accounting, regulatory or other requirements.

What you need to have to succeed in this role:

Strong experience in backend development of large scale applications and systems in Python, especially for cloud environments, preferably including development of libraries and designing/extending of APIs.

Experience in building and maintaining containerised solutions and CI/CD pipelines for end2end automations on cloud-based platforms (GCP, Docker), preferably utilising Jenkins and Github integration is considered a plus.

3+ years of relatable experience.

Strong knowledge of at least three of: Python, FastAPI, Apache Airflow, S3, Kubernetes, Jenkins, Docker.

Experience in writing technical documentation and test-driven development.

Knowledge of finance, particularly quantitative finance, experience of Risk or Analytics is nice to have.

What we offer

Competitive salary

Annual performance-based bonus

Additional bonuses for recognition awards

Multisport card

Private medical care

Life insurance

One-time reimbursement of home office set-up (up to 800 PLN).

Corporate parties & events

CSR initiatives

Nursery discounts

Financial support with trainings and education

Social fund

Flexible working hours

Free parking

If your CV meets our criteria, you should expect the following steps in the recruitment process:

Online behavioural test

Telephone screen

Job interview with the hiring manager

We are looking to hire as soon as possible so don't wait and apply now!

You'll achieve more when you join HSBC.
