About the project

Model Risk Management (MRM) at HSBC is structured as a global function, headed up by the Chief Model Risk Officer (CMRO). The MRM function reports directly to the Group Chief Risk and Compliance Officer (GCRCO) ensuring its independence from the model developing and owning areas of the firm.

Your responsibilities

Knowledge in model development/validation tools and methods across an array of

different model types.

Prior knowledge of providing technical assurance or auditing of model validation activities, would be preferable.

Knowledge of internal procedures and local regulations and those of other country regulators would be an advantage.

Significant experience of technical report writing, ideally a model developer or independent validator.

Experience of presenting recommendations to Senior Management.

Ability to present complex statistical concepts and results in a persuasive and compelling manner.

Team-oriented mentality combined with ability to complete tasks independently to a high-quality standard.
