C++ Software Developer

Poland

Job Description

Hexagon is a global leader in sensor, software and autonomous solutions . We are putting data to work to boost efficiency, productivity and quality across industrial, manufacturing, infrastructure, safety, and mobility applications. Our technologies are shaping urban and production ecosystems to become increasingly connected and autonomous — ensuring a scalable, sustainable future.

Hexagon's Technology Hub focuses on applied research in the fields of geodesy and metrology. It drives the evaluation and introduction of new technologies for the global Hexagon group. With its headquarters located in Switzerland the Technology Hub operates an Imaging Development Center (IDC) in Lodz.

We are looking for an enthusiastic and dedicated person for the position of:

(Senior/Expert) C++ Software Developer

This is you

A relevant university qualification (BSc/MSc) in Computer Science.

At least 4 years of experience for Senior,

Advanced skills in modern C++ and object-oriented programming,
