

## Configuration Engineer (SAP QM), Quality Operations

[Apply Now](#)

Company: Novocure

Location: Poland

Category: architecture-and-engineering

Novocure is a global publicly-traded commercial-stage oncology company developing a profoundly different cancer treatment therapy called tumor treating fields (TTFields) for patients with solid tumors. TTFields therapy is a non-invasive, novel, antimitotic treatment modality which utilizes proprietary technology attempting to slow or reverse tumor progression by inducing tumor cell death. Novocure's commercialized product, Optune, is approved for the treatment of adult patients with glioblastoma (GBM) in the USA, Europe and Israel. Novocure has ongoing or completed clinical trials and is further expanding its efforts into several other solid tumor indications - non-small cell lung cancer, pancreatic cancer and other types of solid cancers.

Novocure Poland is our newest office in Europe and you will be part of a global business services team supporting multiple business functions including finance and payroll and located in Krakow. The global business services organization within Novocure Poland is critical to Novocure's efforts to drive process efficiency, standardizations and drive greater business value as the company prepares for future growth.

To support our team in Krakow, Poland we are looking for a:
