Meet the CFO & EV Enterprise Analytics Team

A new era of digital transformation is being driven by the emergence of cutting-edge technologies. Companies use data analytics to accelerate their operations, make better decisions and provide higher quality service to their customers. To leverage the potential of data and maximize the benefits of a data-driven strategy, companies are looking for experts that are ready to define new standards and guide them towards success. That is where the Enterprise Analytics practice at Accenture comes in. We combine data analytics and strategy consulting as part of a single agenda which helps our clients solve complex problems, discover new opportunities and thrive in today's global business environment.

What will you do?

Although no two days at Accenture are the same, as a **Data & Analytics Analyst** in our CFO&EV Enterprise Analytics practice, typical tasks will include:

Design and development of cutting-edge, innovative, powerful reporting and analytics solutions

Advise on state-of-the-art reporting, including preparation of proof of concepts

Work directly with clients to gather specifications for data and report requirements

Effectively translate end-user reporting requirements into functional design documents

Explore large datasets, execute data preparation and data blending procedures, and create data models/sets, reports and dashboards

Improvement of existing solutions to ensure consistency and cohesiveness across all data

analytics applications

Participate in strategic cross-domain projects that require analytics and business acumen

Participate in large-scale digital transformation programs working with international teams and collaborating with the brightest minds across many industries.

Who and what we are looking for?

Minimum bachelor's degree preferably in finance and/or computer science

Sound knowledge of financial controlling aspects, enterprise performance management and financial analytics

Working knowledge in the area of SAP

Familiarity with design and implementation of reporting & analytics solutions

Familiarity and/or willingness to work with modern, market-leading technologies: SAP Analytics Cloud, SAP BW, SAP S/4HANA

Data savvy, ability to integrate data to create new insights

Problem-solving and out-of-the-box thinking ability, directed at defining innovative solutions

Strong communication skills: ability to explain solutions verbally and in writing

English at professional level, additional proficiency in German or French is highly welcomed.

Working Conditions:

Employment contract (Umowa o pracę)

Headquarter in Warsaw with offices in Cracow, Wroclaw, Lodz and Gdansk.

We are delivering our work mostly remotely but knowing that **Intelligent Consulting Hub Europe (ICH)** way of working is also based on traveling and serving advisory working closely with our Clients, willingness and ability to work at client's locations mostly across Europe, but also other locations, for short or long term is still required if pandemic situation will change.

What we offer:

Challenging job in a dynamic, professional, international and multicultural environment

Opportunity to gain exceptional on Polish market, skills, knowledge and experience gained on large scale international projects

The unique chance to work in a global network using only state-of-the-art tools and technologies

One of a kind experience with best know-how, with broad access to certifications and professional industry-recognized trainings.

Very attractive and competitive salary as well as a well-defined career path shaped to the individuals career focus & priorities

Attractive benefits package: Remote/Hybrid way of work, Cafeteria System, Multisport card, Lunch card, Private medical care, Employee Assistance Program, AMEX Gold Card, Lounge Club Priority Pass, Life insurance, Employee referral program and much more...

If this sounds like the ideal role, career, and company for you, please apply online as soon as possible.
