Company: Aptiv

Location: Kraków

Category: computer-and-mathematical

Data Visulisation Engineer

The Data Visualization Engineer will take requirements from our customers and develop them into excellent data visualizations which enable actionable insights for our customers. This person should not only deliver a functional dashboard, but also provide a systematic flow to insights including backend interaction and the ability to effectively tell a story with the data.

Your Role

Perform iterative analysis and modeling exercises on large sets of engineering data to uncover trends, insights and anomalies with the goal of solving targeted business problems

Work with large amounts of engineering and operational data, turning complex statistical observations into practical analytics reports for internal and external teams

Effectively communicate customer datasets using Power BI

Help set standards of Power BI to utilize drilldown features and advanced functionality

Transforming data sets, quantitative and qualitative analysis into compelling visuals

Develop rich, interactive and visually striking graphics and data visualizations of large amounts of data

Develop end-to-end experiences with personas, scenarios, journeys and user flows

Your Background

Key ingredients for succeeding in this role are your:
University degree in data science, computer science, mathematics, statistics, or related field

3+ years experience in data visualization or similar role

Expertise with charting, plotting, tables, diagraming, and other data visualization techniques

Fluent in MySQL. Experience importing and manipulating large database sources into front-end graphical representations

Strong understanding of data engineering, design and analysis methodologies, developing and designing reports, visualizations or dashboards for business users

Experience using REST APIs

Expertise with Microsoft Power BI data visualization platform

Excellent visual skills, including demonstrable design knowledge, such as layout, typography, color, and interaction design

Experience in the automotive engineering industry is a plus

Why join us?
You can grow at Aptiv. Aptiv provides an inclusive work environment where all individuals can grow and develop, regardless of gender, ethnicity or beliefs.

You can have an impact. Safety is a core Aptiv value; we want a safer world for us and our children, one with: Zero fatalities, Zero injuries, Zero accidents.

You have support. We ensure you have the resources and support you need to take care of your family and your physical and mental health with a competitive health insurance package.

Your Benefits at Aptiv:
Hybrid and flexible work arrangements.

Private health care (Signal Iduna) and Life insurance for you and your beloved ones.

Employee Pension Plan paid by the employer (you get + 3,5% on each gross salary).

Benefit Program including for example sport groups, Multisport card, cinema tickets or discount programs with various manufacturers and retailers.

Smart Office environment designed to be your second home— interactive areas for mixed online and offline presence (touch screen TV's, forum areas, etc.), chill out areas, PlayStation, pool table, garden, library, high-quality coffee, tea, fruits, snacks and drinks.

Meaningful work that makes a difference in the world.

Work in international team - possibility to use English on daily basis in communication with other team members.
