

DevOps Engineer II - Remote Poland

[Apply Now](#)

Company: Akamai

Location: Poland

Category: computer-and-mathematical

Would you like the opportunity to work on a wide range of technical challenges on an important, foundational project?

Do solving some of the Internet's most difficult content delivery challenges interest you?

Join our Image and Video team in Krakow

Our Intelligent Edge division consists of collaborative, inclusive, and creative teams that develop applications and services to empower our customers. We make it easy for our customers to build rich experiences on from our core Akamai Platform. Our team plays an integral role in envisioning future innovations for our product portfolio.

Partner with the best

As a DevOps engineer you will be focusing on developing automation and infrastructure to support integration of our engineering projects. You will be collaborating with engineering team to design, shape and create innovative solutions. Helping to grow our product and ensure reliable operations.

As a DevOps Engineer II, you will be responsible for:

Designing and implementing tools and pipelines that help automate builds and releases

Performing system programming/automation to solve complex issues

Working as a part of the agile software engineering team

Troubleshooting complex production issues in a distributed environment

Do what you love

To be successful in this role you will:

Have good programming/scripting skills and an interest in learning new technologies

Be aligned with DevOps principles and demonstrate solid knowledge using continuous integration systems

Be working with different technologies including such as Jenkins, Kubernetes, Docker, Python, Terraform, Grafana

Enjoy being a part of the agile working team. Creating an environment where the team can work at their best

Enjoy working with and collaborating with people from across the business and have fluency in English language

Work in a way that works for you

FlexBase, Akamai's Global Flexible Working Program, is based on the principles that are helping us create the best workplace in the world. When our colleagues said that flexible working was important to them, we listened. We also know flexible working is important to many of the incredible people considering joining Akamai. FlexBase, gives 95% of employees the choice to work from their home, their office, or both (in the country advertised). This permanent workplace flexibility program is consistent and fair globally, to help us find incredible talent, virtually anywhere. We are happy to discuss working options for this role and encourage you to speak with your recruiter in more detail when you apply.

what makes Akamai a great place to work
