

## DevOps Engineer with Azure

[Apply Now](#)

Company: NATEK

Location: Poland

Category: computer-and-mathematical

### Job description

Our client is in the middle of a digital transformation, as are the industries we operate in. As part of an initiative to accelerate this process, we will build and scale infrastructure competence to further support our data-enabled platform. Join our team to leverage capabilities to transform our global services across the maritime, energy and life science industries.

As DevOps Engineer, you will join a team that is transforming existing and developing new digital services and tools across all client's industries. We are looking for candidates who are passionate about building infrastructure solutions with great technical expertise.

#LI-MK1

### Your responsibilities

- Operation of Azure cloud-based services
- Designing and implementing new capabilities of operating platform based on Kubernetes / Azure technologies
- Incidents troubleshooting and root cause analysis
- Cooperate in an international team daily

#LI-MK1

### Our requirements

- Software developer or sysadmin background
- Knowledge of Linux operating system
- Containers and container orchestration knowledge
- Experience in scripting (ex. PowerShell, bash)
- Infrastructure as a code knowledge (Terraform, ARM Templates, Bicep)
- Familiar with DevOps tools (docker, podman, helm, kustomize, flux)
- Familiar with continuous integration and deployment, Gitops methodology
- Excellent communication and collaboration skills
- Solid English communication skills, both written and oral

Additional advantage will be experience with one or more of the following:

- Experience in operational processes (disaster recovery, deployments, rollbacks)
- Familiar with security tools used (opa, trivy, sops, snyk)
- Knowledge of and hands-on experience in
- Monitoring, logging and alerting tools in Azure
- Azure DevOps
- Networking knowledge
- Implementing automated deployments via YAML in Azure DevOps pipelines
- Developing and consuming RESTful API services
- Familiar with C# language
- Agile development methodology such as Scrum

## **Benefits**
