WE ARE

SoftServe is a team of thinkers and doers, true professionals, and good people, solving business challenges with innovative technology solutions. You can meet SoftServians everywhere from the to Singapore.

We are a team of 1,000+ people in Poland, experienced in the fields of AI, VR, Machine Learning, Big Data, DevOps, Cloud, core software development, and many others. We have offices in 7 locations in Poland – Wrocław, Gliwice, Białystok, Warsaw, Gdańsk, Łódź, and Kraków. And we are still growing!

Join us, and do what drives you.

IF YOU ARE

A highly experienced Azure Technical Leader with a cybersecurity mindset and proficiency in large-scale implementation of public cloud environments

An expert in working and configuring major Microsoft Azure services

Proficient in the large-scale enablement of public cloud environments in Azure for a bank

Confident in secure, infrastructure deployment in the cloud using Agile and DevOps concepts

Experienced with a definition of Cloud Management Platform Security Policies for Azure

Possessing an enterprise-level cybersecurity mindset; proficiency in security architecture, and security design

Aware of Microsoft's Well-Architected or Cloud Adoption Frameworks

Knowledgeable of security aspects in the implementation and operation of up-to-date cloud technologies (microservices, service mesh, k8s, CI/CD pipelines, etc.)

Experienced with a definition of Cloud Management Platform Security Policies for Azure (Secrets Management, IAM, Service Principals, Policies, AAD, etc.)

A professional with excellent written and verbal communication skills

Showing extra advantages in the financial services industry

AND YOU WANT TO

Develop Cloud Service Design Patterns and Blueprints for the enterprise

Create patterns required for each Cloud Service (IaaS, PaaS, SaaS, and FaaS) the client subscribes to

Develop the security level applied to the cloud service (explaining how the bank secures that service in line with its policies)

Work on diagrams, schemes, and requisite IaC/PaC components which in turn will be consumed in pipelines/DevOps processes and CSPM tools

Ensure that the solution is deployed and governed as per the pattern

Collaborate with engineering teams to design and propose best-in-class business and technical solutions

Build positive working relationships with essential stakeholders and take initiative

TOGETHER WE WILL

Support your technical and personal growth — we have a dedicated career plan for all roles in our company

Take part in internal and external events where you can build and promote your personal brand

Create an exceptional customer experience, impact the company's global success, and be recognized by the Customer Hero Program

Care about your individual initiatives — we are open to them, just come and share your ideas

Share many other advantages: attractive salary, modern office, a package of benefits, language classes
