

DMOB0021 BA/UX Architect

[Apply Now](#)

Company: Trinetix

Location: Poland

Category: other-general

We are looking for a prominent professional to join our team, which designs web and mobile products for different companies across the Globe.

To put it short, you will own the project in terms of design. Here's what you're supposed to do:

- Clarify all the requirements with the client (especially the ones which the client doesn't realize yet) to set the task as accurately as possible
- Develop a strong vision of the project
- Translate this vision to the developers, help them to estimate and plan the project
- Ignite design team with your vision, make the project take off smoothly, and manage it designwise until its successful completion.

As we are looking for a truly seasoned professional, you will have all the freedom to do things right in the way you find right. No one will tell you what to do, while everyone will be at your disposal for advice and support.

Expected skills:

- Fluent English (just a must, as all your clients, will be native English speakers)
- Ability to explain your vision to your team, and your team's decisions to the client. Tools and means of explanation are up to you and a part of the challenge as well.
- Persuasiveness: ability to convince that your team's decision is the one to be implemented
- Flexibility. However brilliant your plan A would be, be open to look for a plan B, always.
- Smart leadership. We trust our people; we need them to be led wisely and carefully. You are supposed to grow together and learn from each other.

- Good understanding of mobile UX, hands-on experience in UX architecture, knowledge of mobile design patterns.
- Understanding of development processes, high-level at least — to promote tight cooperation and coordination of our design and dev teams.
- Good planning skills
- “What if” and “why not” mindset, creative and optimistic
- Sincere enthusiasm. We believe we all bear exactly as much responsibility as we’re eager to take, not imposed to.

What we offer:

- Tasks you would love to crack
- Very friendly and open professional environment
- Unlimited opportunities for knowledge sharing
- Possibilities for constant growth
- Compensation package growing with you

Perks:

Team of talented and appreciative open-minded professionals

Regular feedback and health checks

Medical insurance and sports program compensation

Paid English language courses

Private Entrepreneur and legal support

We currently work from home with office essentials and support, but you can visit our office in Warsaw, Poland, if you wish so

Shifted working hours (11am–8pm)

Who we are:

We are Trinetix, one of the fastest growing technological companies on the market and unity of people with a passion for problem solving. If you share this passion, we invite you to join our team and tackle those problems together. We promise you a challenging work environment, smart and friendly colleagues, and plenty of tricky problems to crack.
