### About Us

Where Innovation meets Excellence.

Be a part of a globally renowned management consulting firm that is on the front-line of industry disruption. We are a mid-size player with an entrepreneurial spirit that works with a market-leading brand in every sector, while our parent organization Infosys is a top-5 powerhouse IT brand that is outperforming the market and experiencing rapid growth.

Our consulting business is annually recognized as one of the UK's top firms by the Financial Times and Forbes due to our client innovations, our cultural diversity and dedicated training and career paths we offer to our consultants.

As we look to strengthen our team with top talent that can shape the future for our firm, we seek entrepreneurial-minded individuals that value a highly-diverse culture where differences are embraced, that want to have a voice with top management and that are rewarded for collective achievement. We are committed to fostering an inclusive work culture that inspires everyone to deliver their best!

### The Team

Our Energy Practice helps some of the largest global firms and most recognizable brands solve their biggest challenges in today's age of constant disruption. With diverse services spanning strategy and digital innovation to supply chain optimisation, we help clients shape and achieve their growth agenda for a sustainable future.

### The Role

Ø Developing and implementing solutions for the complex challenges in the oil refining

industry, with a focus on Process Control Systems (PCS), including Distributed Control Systems (DCS) and Programmable Logic Controllers (PLC).

Ø In-depth understanding of Supervisory Control and Data Acquisition (SCADA) systems for remote monitoring and control.

Ø Proficiency in Enterprise Resource Planning (ERP) Systems to optimize resource allocation and operational efficiency in refineries.

Ø Expertise in Asset Management Systems for maintenance scheduling and asset performance management.

Ø Knowledge of Safety and Environmental Management Systems to ensure regulatory compliance and manage environmental impacts.

Ø Familiarity with Laboratory Information Management Systems (LIMS) for managing refinery laboratory data and processes.

Ø Utilizing Advanced Analytics and Simulation Tools for process optimization and predictive maintenance.

Ø Implementing robust Cybersecurity Solutions to safeguard refinery operations.

Ø Employing Collaboration and Communication Tools for effective internal communication and coordination.

Ø Leveraging Internet of Things (IoT) and sensors for enhanced process control and data collection.
