Beckman Coulter Diagnostics is proud to work alongside a community of six fellow Diagnostics Companies at Danaher. Together, we're working at the pace of change to improve patient lives with diagnostic tools that address the world's biggest health challenges.

The **Field Service Engineer** for Beckman Coulter Diagnostics is responsible for service, repair and/or installation of products or IT solutions at customer site, including electrical and mechanical testing, in accordance with maintenance contracts.

This position is part of the Technical Service and Application Department located in Poland and will be fully remote. You will be responsible for installation and maintenance of Beckman Coulter equipment in south part of Poland, hence the ideal location is **Poznań/ Kalisz** .

We are looking for a reliable and accurate team player, who will take the responsibility for delegated tasks. A self-motivated and flexible person who is willing to travel At Beckman Coulter, our vision is to relentlessly reimagine healthcare, one diagnosis at a time.

You will be a part of the Technical Service and Application Team and report to the Field Technical Service Supervisor, responsible for managing installation and maintenance of

Beckman Coulter products in Poland. If you thrive in a fast-paced role and want to work to build a world-class Field Technical Service organization—read on.

In this role, you will have the opportunity to:

Conduct service, repair and/or installation of our products, as well as IT solutions at customer site, including electrical and mechanical testing in accordance with maintenance contracts.

Make diagnoses of the system failures and settles most effective solution.

Raise complex issues to higher level of technical support or quality reporting system.

Develop new customer service/product agreements.

Respond to customer support calls within an assigned territory.

The essential requirements of the job include:

Technical knowledge and experience within Medical Devices/ Diagnostics in service maintenance area (or in other highly regulated industry)

BS.C in Engineering (Bioengineering, Electronic, Electrical, Mechanical). Medical Devices expertise

Ability to drive a car and be flexible with working time - more than 50% of travelling is required.

Proficient English and Polish.

It would be a plus if you also possess:

Logical and creative thinking and problem-solving approach

Developed analytical skills and application of scientific methods to perform a variety of activities

Ability to recognize and solve typical problems that can occur in own work area without supervisory approval; evaluates and selects solutions from established operating procedures and/or scientific methods

At Beckman Coulter Diagnostics we believe in designing a better, more sustainable workforce. We recognize the benefits of flexible, remote working arrangements for eligible roles and are

committed to providing enriching careers, no matter the work arrangement. This position is eligible for a remote work arrangement in which you can work remotely from your home. Additional information about this remote work arrangement will be provided by your interview team. Explore the flexibility and challenge that working for Beckman Coulter Diagnostics can provide.

When you join us, you'll also be joining Danaher's global organization, where 80,000 people wake up every day determined to help our customers win. As an associate, you'll try new things, work hard, and advance your skills with guidance from dedicated leaders, all with the support of powerful tools and the stability of a tested organization.

At Danaher, we value diversity and the existence of similarities and differences, both visible and not, found in our workforce, workplace and throughout the markets we serve. Our associates, customers and shareholders contribute unique and different perspectives as a result of these diverse attributes.

If you've ever wondered what's within you, there's no better time to find out.
