

Finance & Reporting Specialist (Wrocław, Poland)

[Apply Now](#)

Company: Unit8 SA

Location: Wolow

Category: business-and-financial-operations

Who We Are

Founded in 2017, Unit8 is a fast-growing Swiss AI and data analytics company dedicated to solving complex problems of traditional industries like automotive, chemical, financial services, manufacturing and pharma. We work with some of the biggest organizations in Europe to solve the challenges that directly affect their business. Since our foundation, we have successfully delivered more than 155 projects.

Unit8's mission is to drive the adoption of AI and Data Science in the non-digital industries and to help accelerate their digital transformation. Among its activities, Unit8 dedicates a part of its resources and time on projects that deeply matter to us - that includes collaboration on pro-bono and "engineering for good" cases.

Requirements

Are You a team member we are looking for?

The ideal candidate for this position will have a proven background in financial disciplines, such as economics, finance and accounting or management, supported by at least two years of professional experience in finance-related roles. Having excellent organizational skills and a keen eye for detail is necessary.

You have:

Higher education in financial fields (economics, finance and accounting, management),

Minimum 2 years of experience working in Finance/Controlling/FP&A/Reporting

Very good knowledge of Google Sheets and Excel

Knowledge of the Microsoft Power BI tool as a plus

Highly developed analytical skills, attention to details and organizational skills

Ability to work independently and as part of a team

Optimism and “can do” attitude

High energy, growth mindset and openness to learning

High level of English to communicate with our global team

Willingness to operate as a sole trader in Poland

What will you do?

In this dynamic role you will be supporting our finance processes through a variety of activities:

drive the execution of month-end closing tasks, focusing primarily on management reporting, allocation of cost to cost-center and more

preparing various periodic reports such as sales reports, travel expenses reports

preparing ad hoc data and reports as needed

participation in the development of new analytical tools for making business decisions

development and automation of reporting and forecasting tools used by the company

Benefits

What We offer

Benefits you will receive

Compensation package including base salary, yearly bonus based on the performance of the company

30 paid days off

Flexible working hours

Dedicated budget for training

Private health care and Multisport

Up to 10% time for self-development, knowledge-sharing sessions with other engineers as well as external training/conferences

Cross offices/company-wide frequent events (off-site or online) as well as quarterly budget to spend with the team on after-work activities
