ABOUT MOBILITY

Our brands including FINN.no in Norway, Bilbasen and DBA in Denmark, Oikotie and Tori in Finland, and Blocket in Sweden, joined forces collectively forming **Schibsted Nordic Marketplaces**.

You will be joining **Mobility**, which is a part of Schibsted Nordic Marketplaces with the mission to **provide the most frictionless online car buying and selling experiences**

Buying and selling of new and used cars is moving increasingly online. With digitally savvy consumers, we expect the Nordics to be a frontrunner in this development.

Our current market position is strong, but competition is also expected to increase, meaning that we need to execute fast, introducing transactional solutions to meet consumer expectations.

ABOUT THE TEAM

We are about to embark on a new journey where we aim to leverage the collective strengths of our brands by verticalization.

We will do it by harmonizing diverse brand elements into a unified and synergic ecosystem of shared capabilities. This new team will help with the verticalization and modernization of our Private Seller Area.

Some key technologies we use: **Java/Kotlin** for the backend, **React/Vue** for frontend, **Kafka** for communication between services, **Postgres DB**, **Kubernetes**, and **Google Cloud Platform**.

You will also collaborate closely with the Product Manager, and other teams to understand

the needs and requirements.

ABOUT YOU

For this role, we are looking for a **fullstack developer** with a solid understanding of software development principles, design patterns, and best practices.

You should have:

Strong experience with backend development using **Kotlin (ideally) or Java**

Broad knowledge of the **Spring Boot** framework

Frontend experience with **React** or **Vue**

Knowledge of **SQL**, especially **PostgreSQL**

Passion for learning and experimenting with new technologies

Understanding of concepts and experience with continuous deployment and testing

Will to take responsibility for your work and reach out a helping hand to colleagues when needed

Good **English** skills

We work in **hybrid way** and would like to catch up with you at our vibrant and colorful office in **Kraków 2-3 days per week**. This allows for collaboration and meaningful connections with the team. If you're not the working-from-home kind of person, you are of course welcome in our office every day!
