## Fullstack Engineer (Typescript, JS, AWS)

at Capco Poland

### CAPCO POLAND

#### **\*This role is remote for Poland based candidates only**

Joining Capco means joining an organisation that is committed to an inclusive working environment where you're encouraged to #BeYourselfAtWork. We celebrate individuality and recognize that diversity and inclusion, in all forms, is critical to success. It's important to us that we recruit and develop as diverse a range of talent as we can and we believe that everyone brings something different to the table – so we'd love to know what makes you different.

Such differences may mean we need to make changes to our process to allow you the best possible platform to succeed, and we are happy to cater to any reasonable adjustments you may require. You will find the section to let us know of these at the bottom of your application form or you can mention it directly to your recruiter at any stage and they will be happy to help.

Capco Poland is a global technology and management consultancy specializing in driving digital transformation across the financial services industry. We are passionate about helping our clients succeed in an ever-changing industry.

We also are experts in focused on development, automation, innovation, and long-term projects in financial services. In Capco, you can code, write, create, and live at your maximum capabilities without getting dull, tired, or foggy.

Joining Capco as a Consultant, you will have the possibility to work among world's greatest

Banks, Fin-Tech's and other world's companies to accelerate your potential to the fullest. Working in a fun easy going agile team you will have the opportunity to cover all aspects of development and application management. Being a member of this international team means you jump in and do what is necessary to help the team succeed. We all work together to achieve our goals, and everyone helps us get there.

### **THINGS YOU WILL DO**

You will develop and maintain features for one of the biggest platform using by millions of users

You'll use Angular (Typescript), TypeScript, and JavaScript to create the best user experiences

You will craft HTML templates and write SASS using our client Design System based on Bootstrap

You will work in a cross-functional Agile team

Your tailor-made code integrates products with customers' systems, one platform, no point solutions, large-scale users

Create your own approach to work, use your own productivity system

Work directly with customers, and partners, supporting them in implementing solutions on a daily basis

**TECH STACK:** Java, Typescript, AWS Lambda, JS

### **SKILLS & EXPERIENCES YOU NEED TO GET THE JOB DONE**

4+ years of experience as a fullstack developer

3+ years of experience in Angular 2+/Typescript

Experience in JavaScript, RxJS, CSS (SASS) and HTML

Solid understanding of software architecture and software design patterns

You know the ins- and outs- of effective CI/CD

Proficiency in English language

We can provide an immediate start for b2b candidates.

If this sounds interesting then please apply with your updated CV.
