

Fullstack Java Software Engineer

[Apply Now](#)

Company: itjobsplus

Location: Warsaw

Category: computer-and-mathematical

Hey there! Are you a tech-savvy problem solver with a knack for creating functional and user-friendly software? Come and join us as a FullStack Software Engineer! For our customers - we're looking for someone who can take our software to the next level and help us redefine what's possible in the Engineering industry.

Role Description

As a FullStack Software Engineer, you'll be working on developing and maintaining our client's cutting-edge software products. You'll be knee-deep in code, working on both the front and back end of our systems. You'll be responsible for creating and implementing system software, and analyzing and upgrading older systems. Get ready to dive into a creative, challenging role where every day is different!

About Us

In IT Jobs PLUS, we believe that the hiring process has to be updated.

That's why we've developed a streamlined platform that eliminates the need for resumes, cover letters, and motivational essays. Our system is designed to connect IT professionals with the best job opportunities in the simplest way possible.

Requirements

Proven experience as a FullStack Software Engineer or similar role

Knowledge of the Java programming language, experience in the latest versions of

Spring Boot and Angular/React

Strong problem-solving skills and attention to detail

Excellent communication and teamwork skills

Degree in Computer Science, Engineering, or related field

What We Offer

Competitive salary range

Work from home opportunity

So, are you ready to take your career to the next level? Don't wait! Apply here: today and let's take engineering to new heights together. We can't wait to meet you!
