The Offer

Opening within a company with a solid track record of success

Join a market leader within IT Services

Flexible working options

The Job

Your responsibilities will include:

During this Evaluation project, participants will test and evaluate different apps available in the App Store to determine the usability, efficiency and overall user experience and intent. This will be done by analysing the information provided in the App Store.

To improve the way different apps function, in order to enhance the user experience in future versions.

During this Evaluation project, participants will evaluate different music queries and their results to determine the usability, efficiency and overall user experience and intent. This will be done by analyzing the information provided in the Apple Music application as well as doing side searches on Google, Bing, Youtube to help users understand the intent of each query.

The Profile

Main requirements for both projects:

Must have a valid Apple ID and an iOS device.

Must be a native speaker or very fluent in the Russian language to effectively liaise with the stakeholders of the region.

Must be fluent in English.

Other important information:

We will provide thorough instructions and guidelines to ensure the project is completed successfully.

We offer flexible schedule, although a minimum of 15-20 hours per week is expected.

Being based in-country is compulsory. Please do not apply if your country is not listed, even if you speak the language.

The Employer

Our client brings together data, intelligence and experiences to deliver human-centric solutions to complex business challenges.
