IT Development Program (3-12 months, part-time / full-time)

Apply Now

Company: Procter & Gamble

Location: Warsaw

Category: business-and-financial-operations

Description

Information Technology at Procter & Gamble is where business, innovation and technology integrate to create a competitive advantage for P&G to win with consumers. Whether your role is to create an IT innovation strategy for a business, protect our critical information systems and assets, or build a completely new way of operating, your technical knowledge will be recognized and rewarded. Your career in IT at P&G will build you through growing your technical, leadership, and influence skills; expand your perspective via experiences across multiple businesses; and cultivate depth of expertise in areas like **Engineering**, **Analytics**, **Product Management**, **Information Security**, and many more.

What we offer is an exciting and diverse set of opportunities to solve problems that come with being one of the largest consumer goods companies in the world.

Responsibilities:

Based on your experience and preferences you might be assigned to a technical or business / managerial IT traineeship. Your responsibilities might be but not limited to:

develop code to solve business problem;

communicate and cooperate with all involved parties;

coordinate technical changes and requirements and establish the right user experience;

gather business requirements and lead process simplification, issue resolution, and manage changes;

provide business and technical insights;

collaborate with vendors to deliver against the business needs.

You might be offered with one of the following roles as per your skills and recruiters' assessment:

Product Owner, Project Manager/ Scrum, Operations Manager, DevOps Manager, Software Engineer, Solution, Architect, Data Engineer, Machine Learning Engineer, SE Reliability Engineer, Data Architect, Managed Kubernetes Platform SRE, UX/UI Designer and more.

Your traineeship might last 3-12 months. The main focus of this Traineeship Program is your learning. **We will offer full-time positions to our successful participants** .

Job Qualifications

Requirements:

3rd, 4th, 5th year students with maximum 12 months following graduation - with a real passion for business and technology;

Basic programming skills in any general-purpose programming language;

Problem solving skills and positive attitude towards challenges and change;

Very strong leadership, teamwork, innovation and analytical skills;

English fluency (Upper-Intermediate or higher level).

Nice to have:

Experience with: Javascript, Python, Scala, Java;

Basics of cloud knowledge (Azure, Google Cloud Platform, AWS);

Understanding of Kubernetes, Spark, Databases, SQL;

Any IT certification (i. e. Bootcamp, SCRUM or Cloud Certification).

We offer:

Attractive salary: 10 400 PLN

P&G-sized projects and access to world leading IT partners and technologies from Day 1;

Work in international teams with global or regional responsibilities;

Work with industry leading technologies, platforms and tools;

Mentoring programs, training and relevant certifications;

Flexibility in defining work schedule depending on individual case, including partially remote work;

Opportunity to participate in P&G voluntary charity programs;

P&G Vibrant Living programs (sport cards, in-office fitness center);

Competitive salary and benefits program (lunch subsidy, private health care, etc.);

Additionally, we offer the **Flex Fund** benefit – empowering you to craft a personalized benefits package tailored to your unique needs, priorities, and life stages. Whether you prioritize health and wellness or crave the perfect work-life balance, seize the freedom to select what truly matters to you.

Just so you know

All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, age, sexual orientation, gender identity and expression, marital status, citizenship, HIV/AIDS status, or any other legally protected factor. P&G is a leading global consumer goods company whose winning brands are built around the model of innovation. Whatever your passion is, we want to ignite your potential to become your very best self. We hold true to our purpose, values, and principles as we seek to make a difference in the world around us. You will engage in meaningful work that will touch the lives of others and have a real impact. Everything at P&G starts with understanding – understanding our consumers and our employees as we innovate to improve lives now and for generations to come.
