

Java Developer | Financial Company

[Apply Now](#)

Company: INHAUS

Location: Kraków

Category: computer-and-mathematical

Join a dynamic team at a leading global IT consultancy working for a prestigious client in the financial sector.

Position Overview: We are seeking a Senior Java Full Stack Developer with 10 years of experience to drive development initiatives independently. The ideal candidate will have a strong background in Java backend frameworks, full-stack web application development, and expertise in CI/CD tools. This role requires the ability to work autonomously, lead development efforts, and collaborate effectively with cross-functional teams.

Responsibilities:

Drive the development of Java-based applications from design to deployment.

Design, develop, and implement Java backend frameworks including Spring MVC, Spring Boot, and Hibernate ORM.

Develop full-stack web applications using JavaScript, HTML5, CSS, ReactJS, and Angular.

Deploy applications on web servers like Apache Tomcat server.

Implement CI/CD pipelines using tools such as Maven, Git, Jenkins, and Jira.

Utilize design patterns like Singleton and MVC for efficient code development.

Work with relational databases including Oracle, MSSQL, MySQL, and DB2.

Write and execute unit test cases using JUnit and follow Test-Driven Development (TDD) practices.

Stay updated with new technology trends like Microservices architecture.

Requirements:

10 years of experience in Java development.

Expertise in Java backend frameworks including Spring (MVC, IOC, AOP), Spring Boot, and Hibernate ORM.

Proficiency in Core Java, Collections API, JDBC, and Multithreading.

Hands-on experience in full-stack web application development using JavaScript, JSON, HTML5, CSS, ReactJS, and Angular.

Experience working with IDEs such as Eclipse and deploying applications on web servers.

Familiarity with CI/CD tools like Maven, Git, SVN, Jenkins, and Jira.

Strong understanding of design patterns, object-oriented programming concepts, data structures, and algorithms.

Experience with relational databases and writing SQL queries.

Familiarity with platforms such as Windows and Linux.

Additional Details:

2-3 days WFO (Work From Office) is mandatory from the Krakow office.

If you are a seasoned Java Full Stack Developer looking to take on a challenging role with opportunities for autonomy and leadership, we encourage you to apply.

Join our team and be part of innovative projects shaping the future of technology .
