

Java Developer

Apply Now

Company: Jit Team

Location: Gdańsk

Category: computer-and-mathematical

Working model Hybrid from Tricity

Why choose this offer?

You can expect a **flexible work organization**

The **international work environment** will allow you to come into contact with the English language on a daily basis

Scandinavian organizational culture will provide you with work-life balance, you will gain time for additional training (financed by Jit)

The **Jit community** will bring you a nice time during regular integration meetings

Project

We are seeking **Senior Java developer** for a strategic API Platform initiative. To simplify our integration landscape, increase reusability, and speed up time to market, we are rolling out a new strategic API management platform and creating new functionality to speed up the

adoption process with self-service for onboarding, governance workflows, and automation.

Expected competencies and knowledge

5+ years with Java Development

Hands-on experience with **Spring Framework, Spring Boot, Microservices, Kubernetes**

Good knowledge of **Integration Patterns**, APIs and RESTful API Design

Familiar with **authentication, authorization and security** in API development (OAuth2 & OWASP)

Good understanding of automated testing, code profiling and performance testing

Good to have

Experience with CI/CD tooling such as Jenkins, Terraform and Ansible

Experience with API Management platforms such as Kong or similar

Knowledge of Front End technologies such as Java Script, TypeScript and ReactJS in order to collaborate with Front end developers in the team

Practical knowledge of AWS

What you'll be doing

Developing the **back end and doing code peer reviews**

Designing and documenting components of the solution when requested

Act as an SME and support for less experienced colleagues

Supporting the operations engineers

Participate in Agile ceremonies

Technologies you'll work with

Java

REST

Spring, Spring Boot

Jenkins, Terraform and Ansible

API Management platforms

Java Script, TypeScript and ReactJS

AWS

Kubernetes

Client – why choose this particular client from the Jit portfolio?

Jit Team has had an **over-decade-long relationship** with the leading financial group in the Nordic countries, and we are privileged to be our client's premier partner in Poland. At present, **150 Jit personnel** are engaged in the completion **more than 60 projects** for this Norwegian major provider of financial services with a global presence and a strong focus on modern technology. Our customer's work atmosphere is epitomized by the **Scandinavian culture** which is conducive to people who place emphasis on **work-life balance and feedback culture**. Furthermore, all projects are executed in international teams, giving constant exposure to the English language.

About Jit Team

The Human factor of Jit is not just a slogan, it's a philosophy. The foundation of Jit Team is

people, which is why we prioritise you. We employ **over 500 experienced experts** . We create highly specialised teams for clients from all over the world. We offer team members developmental projects, a wide range of benefits and a proprietary professional development programme.

Behind our maxim are also charitable and educational activities. We support pupils and students by donating learning equipment. We offer internships to help launch careers in IT. We support water rescuers and hospitals by providing the necessary equipment. We are a Polish company and we share what **we have achieved over 13 years of activity** supporting indigenous initiatives, we ensure the circulation of good energy.
