Java Developer / Poland

Java Developer - Trading

Poland

Up to €80,000 p.a. + bonus

Java Developer (Core Java, Multi-threading / Concurring Programming, Kafka, Docker).

This is a phenomenal opportunity to progress your career working for a Global FinTech, in a supportive learning environment. You will work within a diverse and passionate team of Technologists on green-field developments within a fast-paced environment, which offers flexible working ) and a fully remote interview / onboarding process.

As the Java Developer will play a vital role in this cutting-edge Global Fintech and will be inspired to build a brand new Multilateral Trading Facility (MTF) platform within their Core Development team. You will aid in the design, development and testing of new features on the low latency trading system. A strong understanding of core java as well as a desire to understand the business is necessary for the Java Developer.

A Global Fintech company hiring at all levels provides a fantastic opportunity to work in a high performing and diverse team.

As the Java Developer, you will have:

Solid knowledge of Core Java development

Experience working in an agile environment, following test-driven development practices

A pragmatic and curious mind when it comes to modern technologies

Experience with Kafka or Docker (beneficial, not a requirement)

As an experienced Java Developer you will earn a competitive salary plus a whole host of excellent company benefits.
