REST

Microservices

Spring Boot

Git

Apache Kafka

Event Sourcing

CQRS

About the project

The program has the ambition to create a next-generation e-commerce platform that aims to provide seamless end-to-end support for our clients. This future e-commerce platform will

replace the 3 current e-commerce platforms that support the business and will eventually be deployed across 25 countries.

Join us and support e-commerce worldwide services!

Your responsibilities

Designing and developing Microservices systems

Performing unit and system testing

Working in an agile environment

Analyzing, configuring, and coding the application software components in compliance with the desired developments, standards and procedures

Our requirements

Bachelor's or Master's degree in computer science (or equivalent experience)

At least 5 years of experience in building large-scale software applications

Previous work with Spring framework, MongoDB, Apache Kafka, and Kubernetes

Experience in supporting and/or implementing complex integration projects

Hands-on experience with the CQRS pattern and event sourcing

Fluency in English

What we offer

Great Place to Work since 2015 - it's thanks to feedback from our workers that we get this special title and constantly implement new ideas

Employment stability - revenue of EUR 410 M, no debts, since 2006 on the market

We share the profit with Workers - last year we allocated PLN 21 M to this benefit

Attractive benefits package - private healthcare, benefits cafeteria platform, car discounts and more

Comfortable workplace – class A offices or remote work

Dozens of fascinating projects for prestigious brands from all over the world – you can change them thanks to Job Changer application

PLN 1 000 000 per year for your ideas - with this amount, we support the passions and voluntary actions of our workers

Investment in your growth – meetups, webinars, training platform and technology blog – you choose

Fantastic atmosphere created by all Sii Power People
