Junior Mobile Engineer (Android)

Remote Poland, PolandOLX – Engineering /Full-time /Remote **WELCOME TO OLX**, **we work together to build a more sustainable world through trade** .We make it safe, smart, and convenient to buy and sell cars, find housing, get jobs, buy and sell household goods, and more. Our colleagues around the world help to serve millions of people around the world every month, through its well-loved consumer brands including OLX, Otomoto, Property24. **Join OLX and see how far you can go** We are looking for Android Engineers to join the Detail View development pack. You'll collaborate with Frontend, Backend and Mobile (iOS, Android) engineers, Product managers, Product designers and Data analysts to improve Buyers experience in using OLX across many european markets i.e. Poland, Romania, Portugal, Ukraine. The team consists of 9 engineers (backend, web and mobile), a product manager, a designer, an engineering manager and a data analyst. We are responsible for developing products for buyers, ensuring the quality and health of related services, and supporting our customers. Our primary scope is a view of Ad at OLX platform across all markets.

Your daily work:

Develop and maintain a mobile application, ensuring a smooth user experience and incorporating innovative features,

Develop modular and scalable solutions that enable other teams to deliver excellent work,

Create modular and scalable code that allows easy integration with other systems and

seamless collaboration with other teams,

Enhance the application's performance, usability, and security,

Stay up-to-date with and learn about new technologies and best practices,

Collaborate with a diverse team to solve technical challenges,

Participation in conferences, communities, and educational programs.

About you:

1+ years of experience building Android apps with Kotlin

Knowledge about RESTful APIs, and integrating them into applications,

Basic understanding of software design, object orientation, architectural & delivery patterns,

An understanding of the mobile ecosystem, the full mobile development life-cycle, common libraries and languages,

Knowledge about testing automation (unit testing, end-to-end testing),

Excited about cross-platform development in general,

Awareness of CI/CD processes in the mobile application.

Why join OLX? At OLX, we invest in ourselves and each other to reach our full potential.

We avoid bureaucracy and empower our teams to innovate; with opportunities, training, and leadership behaviors a key focus for all. Our commitment to inclusion ensures we listen to a diverse range of voices when making decisions. And, we combine the spirit and agility of a startup with our global scale and the backing of Prosus, one of the largest consumer internet groups in the world.
