

Junior Node.js Developer

Apply Now

Company: Divante

Location: Wrocław

Category: computer-and-mathematical

Do you want to shape the world of eCommerce with us?

In Divante, we work on **multiple greenfield projects** designed and developed from scratch for the most dynamically growing **sector that is eCommerce** these days.

Our specialists do not get bored **we are working on demanding, big scale projects with 50+ microservices** - **one project takes around 8 months**, and then you can decide to stay on project maintenance or work on a new one.

We genuinely **support our specialists** to become masters in what they are doing by creating space for **personal development, mentoring, training, getting certifications** such as **AWS, commercetools**, and others

Salary: 35 - 70 PLN/h net + VAT (B2B)

With us, you will have the opportunity to:

Design and Build world-class solutions with scalable, high available, distributed architecture guided by a few concepts:

- **Serverless**
- **Microservice**
- **Event-driven architecture**
- **Cloud-native**
- **Headless**

Write microservices in **Node.js & TypeScript**

- From time to time using frameworks **Next.js, Fastify.js**

- For Infrastructure/Configuration as a code using **Terraform and Serverless Framework**

Build **applications using cloud-native services** such as:

- Lambdas, a lot of lambdas, Step functions, SQS, SNS, EventBridge, Kinesis

- DynamoDb, Aurora

- AppSync, Api Gateway, WAF, Fargate, Cloudwatch, X-Ray, Cognito, Glue, Athena

Discover new **cloud services** and other solutions

Assure **CI/CD** pipelines green on our **Gitlab**

Write **unit/integration tests**

If you'd love frontend stuff - co-work with frontend-related teams using **React.js, Vue.js,**

Micro-frontends , etc.

You'll be a perfect match if you:

Have good knowledge of **JavaScript / TypeScript**

Have at least **one year of commercial experience**

Have experience working with **Node.js**

Have experience in working with **NoSQL and SQL databases**

Have good knowledge of **English (at least B2)**

It's great if you also have experience in one or more areas below:

Microservice / Serverless architecture

Public Cloud providers such as **AWS**

Publish-Subscribe and Producer-Consumer experience

GraphQL / REST API on Client and Server-side

Docker, Kubernetes
