

Junior Stress Engineer

[Apply Now](#)

Company: Belcan

Location: Poland

Category: architecture-and-engineering

Are you a Junior/Graduate Stress Engineer looking for a new permanent position?

Are you based near Rzeszów Poland?

If yes, Belcan Poland is looking for a Junior Stress Engineer to join our growing Gas Turbine Design and Analysis team in Rzeszow.

Your main responsibilities will include execution of strength calculations, preparation of design documentation and calculation report. You will also participate in design meetings.

We are looking for a candidate with degree in Aeronautical, Mechanical Engineering or related discipline. You must have at least basic knowledge of FEM. Knowledge of ANSYS and Gas Turbine Engines would be a benefit. As you would be interacting with Belcan in the UK as well, you must be able to speak English.

We offer:

Full-time employment based on an employment contract

Work in an experienced project team, on international projects

Career development

Founded in 1958, Belcan has become a global technological leader and established go to Engineering Services provider, working within many industries including Aerospace, Defence, Marine, Nuclear, Automotive and Cyber Security with over 10,000 professionals serving hundreds of customers in over 60 locations worldwide.

If you are interested in this position, please send your CV to me through the link or to

This vacancy is being advertised by Belcan.
