

## Lead JAVA Engineer (#62)

[Apply Now](#)

Company: N-iX

Location: Poland

Category: architecture-and-engineering

**Work type:**Office/Remote **Technical Level:** Leader**Job Category:** Software Development

**Project:** Global e-commerce leader

We are looking for talented Lead JAVA Engineer to join our team in Poland.

Our California-based customer is an American global e-commerce leader, one of the most popular and successful websites on the Internet. It provides platform services by connecting millions of sellers and buyers in more than 190 markets around the world.

The Lead Java Engineer will be a Tech Lead for a cross-functional team to build an innovative cloud-based livestreaming project to shape the future of global e-commerce. Our goal is to personalize the online shopping experience, engage customers with more ways to interact with sellers, and automate processes to increase buying satisfaction.

We are developing a robust project from scratch, employing a modern stack of tools with best principles and practices from Agile and DevOps culture.

### **Responsibilities:**

Leading the team throughout the SDLC to deliver new business features

Support team members in overcoming technical and project challenges

Design, build, and maintain efficient, reusable, and reliable code

Suggest technical and functional improvements to add value to the product

Conduct design and code reviews to deliver high quality product

### **Requirements:**

At least 7 years of experience in software development with JAVA technologies

Good knowledge of infrastructure side of things (GCP preferable)

Good knowledge of API design patterns and web technologies

Good understanding of CI/CD best practices

Familiarity with Agile methodologies

Good problem-solving and communication skills

Advanced spoken and written knowledge of English language (C1/C2)

BSc or MSc in Computer Science, Engineering or relevant field

**The ideal candidate is also:**

Good at asynchronous, proactive communication

Able to analyze, plan, and estimate requirements and identify risks involved

**We offer:**

Flexible working format - remote, office-based or flexible

A competitive salary and good compensation package

Personalized career growth

Professional development tools (mentorship program, tech talks and trainings, centers of excellence, and more)

Active tech communities with regular knowledge sharing

Education reimbursement

Paid vacation days, sick leaves, and days off

Healthcare & Sport program

Medical insurance

Memorable anniversary presents
