Middle Android Engineer (#16054226)

Apply Now

Company: N-iX

Location: Poland

Category: computer-and-mathematical

Work type: Office/Remote   **Technical Level:** Middle **Job Category:** Software Development
Project: Azercell

Our client is one of Azerbaijan's leading mobile telecommunication providers, with the most significant 49% market share and 5.0 million customers. Together with N-iX, our customer plans to improve his Telco Platform Solution by moving from the cross-platform to native development. The existing Telco application has more than 1M downloads on the market.

Responsibilities:

Design and implement high-quality features according to the best practices, approaches and patterns

Take part in code quality verification processes

Integration with back-end services

Provide comprehensive technical analysis and feedback on the features

On-going discovery, analysis and implementation of new technologies to improve development efficiency

Cover product logic unit/integration/UI tests

Requirements:

Good knowledge and commercial experience with Kotlin

3+ years of experience in the development of mobile applications

English level - Upper-Intermediate

Knowledgeable about architecture and design patterns

Worked on and shipped large-scale applications

Great sense of product — you care about usability and good design

Has worked collaboratively with product owners and other engineering teams to build complex products

We offer:

Flexible working format - remote, office-based or flexible

A competitive salary and good compensation package

Flexible and personalized career growth

Professional development tools (mentorship program, tech talks and trainings, centers of excellence, and more)

Active tech communities with regular knowledge sharing

Education reimbursement

Paid vacation days, sick leaves, and days off

Healthcare & Sport program

Medical insurance

Memorable anniversary presents

Corporate events and team buildings
