Middle Full Stack Engineer (Java+React)

Apply Now

Company: SoftServe

Location: Poland

Category: computer-and-mathematical

WE ARE

SoftServe is a leading technology solutions company specializing in software development and consultancy services. With offices across the globe and development centers across Eastern Europe, we treat our clients' businesses as if it is our own. We're passionate about delivering efficient, innovative, world-class solutions.

Our client is an online travel company for consumer and small business travel. It owns numerous well-known vacation rental online marketplaces. Our locations are Poland, Romania, Bulgaria, Colombia, Mexico and Chile. More than 100 developers offer their services all over Europe and the United States. We have 30+ pod teams that work with Web UI, Java, Kotlin, IOS, and Android that incrementally deliver functionality to the client. We have new global features every six months.

The team composition includes a Project Manager and 5 developers situated in Poland and Romania on our side. On the client's side, there is an Engineering Manager, Program Manager, Product Manager, and a developer team based in London, UK, and Gurgaon, India.

IF YOU ARE

Software Engineer with 3+ years of Java Web Application development experience

Strong in Java 11/17 , React and JavaScript

An expert in Object-Oriented Design principles (SOLID), REST, GraphQL, gRPC

Proficient with frameworks like Spring

Well-versed in Automated Testing using JUnit and Mockito

Experienced with build and continuous integration tools such as Jenkins, Spinnaker, Docker, Maven, Gradle, and Git

Skilled in DB Design, including RDBMS (MSSQL, MyBatis) and NoSQL (MongoDB, Elastic Search)

Familiar with messaging systems like Kafka

Confident with reporting tools like Splunk, DataDog, and Grafana

Knowledgeable of SDLC methodologies such as Scrum/Kanban

Skilled with AWS (as a plus)

Capable of communicating in English freely in a multicultural environment

AND YOU WANT TO

Develop and maintain company-wide platforms and services using Java and React

Assist the development community with best practices and tools

Add new features to the Product details page, utilizing A/B testing

Contribute to the development process by creating technical documentation

TOGETHER WE WILL

Embrace wide career opportunities, challenging projects, top-notch technologies, and a clear career path with SoftServe's People Excellence program

Extend your skillset and gain practical experience by cooperating with seasoned SoftServians at the New Experience Board program

Access local-grown, yet global IT minds and exclusive networking opportunities with expert groups and professional events

Care about your initiatives — we are open to them, just come and share your ideas

Share many other advantages: attractive salary, a package of benefits (Cafeteria, LuxMed, Life insurance), language classes
