Mobile Lead Developer

Miejsce pracy: Kraków

Recruitment for

For one of our key Clients we're looking for an expert specialist for the position of:

Mobile Lead Developer (Android | iOS)

Technologies we use

Expected

iOS

Android

Optional

Angular

ASP.NET

Jenkins

Puppet

Ansible

Terraform

Your responsibilities

Design and implement robust software architectures for medical applications

Collaborate with top-tier experts to develop cutting-edge solutions in digital medical products

Contribute directly to improving customer care and optimizing medical services

Participate in complex projects that challenge you to innovate and excel

Effectively communicate technical concepts with stakeholders across various departments

Leverage expertise in mobile and web application development (Android/iOS) to build custom applications

Employer requirements

5+ years of expert-level experience in Mobile development (iOS + Android)

2+ years of experience as a Tech Leader / Architect

Deep understanding of software architectures across all layers (network, security, databases, etc.) for effective communication with various stakeholders

Experience with database design and data modeling

Proven ability to write technical concepts and models

Deep understanding of mobile app development frameworks and the technical aspects of Android and iOS operating systems.

Fluency in English (B2+)

Optional

Knowledge of agile project management methodologies (Scrum, SAFe)

Understanding of programming patterns (MVC, MVVM) and web development frameworks (Angular, ASP.net, etc.).

Experience with CI/CD tools (Jenkins, Puppet, Ansible, Terraform)

What employer offers

A transparent model of long-term cooperation (B2B contract for an indefinite period)

Stable and safe involvement in a company with a solid market position

Modern equipment provided by the company, along with software and configuration

Flexible working hours

Possibility to work remotely 100% of the time

Professional advice and career support by a team of experienced specialists

A mature and sustainable design ecosystem

Good atmosphere in the team - values such as camaraderie, openness, respect, mutual help and support in development are important to us

We try to work in the spirit of Agile, which we understand as: continuous improvement, effective cooperation and the use of an empirical approach during the development of manufactured products

We support a culture of creativity - each team member has the opportunity to propose their own ideas or solutions - you will always be listened to and your suggestions will be taken into account

Recruitment stages

Phone hello interview with 1dea recruitment consultant

Technical and business conversation with our Client (90 min)

Decision to cooperate
