Job description

Key Role Working under the management of the International Director for Nuclear Power, the Nuclear Project Director is responsible for managing a portfolio of projects and offers produced in Poland for the Nuclear Service Line, both for the local and international nuclear market.

Role in developing offers

To develop offers for the nuclear Polish nuclear market and/or contribute to the international offers

Assess and control the budget and the planning required to produce the offer, in accordance with the tender specifications.

Identify the technical competencies required for the offer and engage the stakeholders to get an efficient offer production.

Lead and coordinate the proposals, including technical teams, the tender unit, the financial and legal departments both in Poland and France

Ensure the adequate level of nuclear safety requirements are implemented in the offer

Identify and address the specific needs of the client in cooperation with the business development team and nuclear management.

Contribute in writing the proposals for the chapters in the fields of expertise

Take ownership and ensure the global coherence of the offer, both on technical and financial aspects

Role in managing and delivering the projects

To manage the projects in portfolio and/or to steer the local production teams delivering for international projects

-Ensure the initiation phase of the project

Develop project management plan and quality plan

Mobilize the project team and coordinate with the global nuclear SL resources and the local sourcing unit

Prepare the internal and external consortium/contractual agreement to deliver the project

Set all the performance tasks required by the Performance Management System

-Execute and monitor the project in accordance with the project management system

Ensure the project delivery in respects with the quality, cost and schedule performance

Manage the risks of the project

Manage the delivery teams

Manage the nuclear safety requirements and implement a quality assurance and nuclear safety behavior within the teams

Manage the changes and evolutions

Ensure the right level of financial indicators (Turnover, Profitability & cash flow)

Manage the contractual relationships with the clients

-Close the project

Close the contract from the technical, legal and financial aspects

Ensure the lesson learnt is captured and will benefit to the next offers and project for the Nuclear Service Line

Profile

Leadership Style:

a)Develop a strategic vision for the offers and projects produced and/or delivered in Poland, aligning with the overall goals of the Nuclear Service Line & Poland entitees.

b) Make informed and timely decisions that align with Service Line objectives, taking into account engineering, safety, and regulatory considerations.

c) Maintain transparent and open communication with all stakeholders, including Nuclear Service Line Management and Poland country Management

d) Participate to the Nuclear Service Line international development and capitalization, including supporting other regions

e) Provide effective leadership to the offer and project team, fostering collaboration and a shared commitment to safety and quality.

Nuclear SL Guidance implementation

Compliance Oversight: Ensure strict adherence to all applicable nuclear regulations and standards, overseeing regulatory compliance in all nuclear engineering activities.
