

## Performance Tester

[Apply Now](#)

Company: b2bnetwork

Location: Warsaw

Category: computer-and-mathematical

In The Netherlands we urgently need a resource that perform tasks for Load and Performance testing for the Dutch Public Prosecutor Office.

We use for L&P testing Loadrunner provided by Opentext.

The tasks performed are:

Creating test data

Perform tests

Maintenance of testscripts (when the application software changes)

Creation of new testscripts

Improvement of testscripts

Maintenance of the testenvironment (Loadrunner)

With other colleagues analysis of the test results

Knowledge of Loadrunner or other performance test tool is preferable.

Knowledge of the programming languages C and/or Java
