

PHP Full-stack Developer

[Apply Now](#)

Company: Dotlinkers

Location: Kraków

Category: computer-and-mathematical

That Company been delivering traveltech products since 2006. They are stable, profitable (even in 2020 in the middle of the pandemic) and super ambitious! They want to multiply by 10 the number of users (from 0,5 million monthly to 5 million) in the next 2-3 years and become the biggest bus/train ticket selling platform in Poland and CEE region!

In order to achieve that goal, they need you!

We are looking for a strong Junior/Regular full-stack PHP developer

What should you know:

PHP and Symfony

Javascript (Smarty or preferably VueJS)

PostgreSQL 12

Tech stack in use:

PHP 7.2 and 7.4

Symfony 4

Frontend based on Smarty, Twig and Vue (currently switching fully to Vue)

DB: PostgreSQL 12

Architecture: 50% monolith (currently being moved to microservices/SOA), 50%

Microservices/SOA

Gitlab, Github, Redmine

Software team structure:

16 people (7 x senior, 2 x mid, 1 x junior), 2 QAs (1 x regular, 1 x junior), UX/UI Designer, Product Owner, Project Manager

Methodology:

Scrum with Kanban

Your tasks will consist of:

Working on new features at 80% of your time and 20% on maintenance/refactoring of two booking platforms + additionally, corporate booking tools (dedicated platforms sold independently).

Contribute with the whole team in defining the backlog priorities

Recruitment process:

HR/Tech interview with the CEO

Tech meeting with the CTO and the Product Owner
