

## PHP Laravel Developer

[Apply Now](#)

Company: SnaPhunt

Location: Poland

Category: computer-and-mathematical

### The Offer

Work alongside & learn from best in class talent

This is a remote position

We are currently seeking a full-time long-term contractor

### The Job

#### You will be responsible for :

Write advanced, high customer-impact code

Implement new technology stacks

Develop & suggest cross-application services to reduce the time needed to start & maintain new products

Understand the entire software development lifecycle, end-to-end

Provide accurate task estimations

Manage risk for unclear requirements

Ensure standard documentation requirements are always met

Ensure code is of standard quality - code reviews of team members

Suggest feedback for team-wide procedures

## **The Profile**

5+ years of development experience

Commercial experience with PHP v5+ (2+ years)

Experience with client-server architectures, networking protocols, application development, and using MySQL (our main DB)

Experience using & developing APIs and familiarity with RESTful APIs and JSON

Docker experience

Understanding user & system requirements

Experience with Lean / Agile development processes

Excellent written and verbal communication skills

A consistent willingness to ask thoughtful, probing questions

High personal integrity and character

Ability to take and understand commitments to deliver the product on time

## **Nice to have:**

Full-stack experience (preferably a Vue.js or other component-based framework)

Auth0 experience

Knowledge of microservices architecture and design patterns

Experience in using the MongoDB database

## **The Employer**

Our client is one of the fastest-growing startups in the proxy industry, with a global presence. Our client culture is reflected in the diversity of talented individuals located in various parts of the world.
