

React Developer

[Apply Now](#)

Company: CRBRM

Location: Poland

Category: computer-and-mathematical

Cerebital is a B2B SaaS company that aims to offer a cutting-edge Innovation and Product Lifecycle Management (IPLM) platform on the cloud to businesses worldwide.

We are seeking a highly skilled Front End Developer to join our team. The successful candidate will work closely with our back-end developers to develop and maintain the front end of our web applications.

The Role

You will be responsible for :

Writing well-designed, testable and efficient code.

Gathering and evaluating user feedback.

Working as a part of a dynamic team to deliver winning products.

Providing code documentation and other inputs to technical documents.

Supporting continuous improvement by investigating alternatives and new technologies and presenting these for architectural review.

Troubleshooting and debugging to optimise performance.

Participating in release and sprint planning sessions.

Ideal Profile

Requirements:

Must complete Bachelor's degree in Computer Science or related field.

Must have minimum 4-5 years of professional experience with React.

Proficiency in implementing React Drag & Drop functionality.

Expertise in React Formik or other form development using React.

Strong command of Material UI / Tailwind / DevExtreme.

Experience with React Chart, Timeline, Graphs, and 3D libraries.

Proficiency in state management with Redux, including actions, reducers, and the Redux store.

Experience with Agile development methodologies.

Strong problem-solving and debugging skills.

Excellent communication and Ability to work independently and as part of a team.

If you are passionate about front-end development and want to work on challenging projects in a fast-paced environment, we encourage you to apply for this exciting opportunity.

Responsibilities:

Develop and maintain the front end of our web applications using React

Collaborate with back-end developers to integrate the front-end with the back-end application.

Write efficient and maintainable code using best practices and design patterns.

Develop and maintain unit tests for front-end code.

Use Node.js and related technologies to build server-side applications, APIs, and

integrations.

Participate in code reviews and provide feedback to improve code quality.

Work closely with the UX/UI team to ensure a seamless user experience.

If you are passionate about front-end development and want to work on challenging projects in a fast-paced environment, we encourage you to apply for this exciting opportunity.

Note: This is a 100% remote position and the person can work from home without the need to travel to the office.

What's on Offer?

Excellent career development opportunities

Work alongside & learn from best in class talent

Great work environment
