

SAP Delivery Manager

[Apply Now](#)

Company: Epam

Location: Poland

Category: other-general

Description

ABOUT THE ROLE

We are looking for an SAP Delivery Manager to become a part of our tight-knit EPAM team and engage in technology-driven activities. As an SAP Delivery Manager, you will be granted a fascinating opportunity to work in a leading software engineering and IT consulting company. If you want to gain vast professional experience and enrich your knowledge welcome on board.

With a relationship of close to thirty years with SAP, EPAM have been on the engineering side of SAP for many of their enterprise product releases, helping them engineer their product and helping them to go to market over the decades.

EPAM are now looking to add a consulting arm to our award-winning engineering services.

Responsibilities

Manage the design and deployment of integrated end-to-end solutions

Establish a strategy of continuous delivery risk management that enables proactive decisions and actions throughout the delivery lifecycle

Be accountable for the technical leadership regarding the delivery, ensuring a sound and future-proof architecture is planned, and the implementation meets the technical quality

standards

Share business values of new SAP solutions to a customer and prove that design and new system architecture will help achieve business goals

Manage customer expectations and relationships, address customer issues during an engagement in cooperation with the Account Manager

Proactively gather feedback from the key business users and understand the business and system gaps; make recommendations and lead implementations for enhancements

Prepare estimations on time frames, quality, and quantity of resources required to implement projects successfully; develop project plan incorporating all project variables

Assure governance of processes in delivery management and production as per the selected delivery model

Act as a single point of responsibility over any delivery-related matters for the top management and client, including escalations, upsells, ramp downs, etc

Build delivery timelines for multiple streams, analyzing internal/external dependencies

Requirements

Solid knowledge of SAP project methodologies (ASAP, SAP Activate) and the differences between them

Experience in working with SAP Solution Manager with or without Focus Build

Understanding of SAP extensions principles and options

Strong knowledge of SAP S/4HANA migration/implementation approaches

Agile development experience with knowledge of application, software architecture and delivery methodologies

High-level understanding of several SAP products capabilities, functionality, and technologies: SAP S/4HANA (Finance, Logistics, Production), SAP C/4HANA (Commerce, Marketing, Sales), SAP SCM (TM, EWM, IBP), SAP GRC (AC, PC, RM), SAP SuccessFactors and SAP Ariba

Strong interpersonal skills with the ability to build effective relationships

Leadership and interpersonal skills with client interaction background

Experience in governing project delivery across the board of all stakeholders

Experience and up-to-date knowledge of design and implementation of end-to-end solutions

Ability to establish solid working relationships with clients, plus the ability to work effectively as a virtual member of a dynamic, dispersed team and to meet deadlines

Advanced planning and management skills

Profound experience in onshore, nearshore, and offshore outsourcing and delivery models

Nice to have

Strong knowledge of SAP solutions and/or technologies

Experience with the following software development processes: Agile, Scrum

Understanding of SAP CI/CD approach
