

SAP FI Consultant

[Apply Now](#)

Company: Epam

Location: Poland

Category: computer-and-mathematical

Description

We are seeking a skilled **SAP FI Consultant** to join our team. As a key member, you will be the first point of contact for stakeholders, responsible for receiving and evaluating their requirements. Your role will involve continuous development of processes in SAP S/4 HANA, ensuring alignment with business needs, and translating functional specifications into technical solutions utilizing SAP core capabilities. You will drive medium to big-sized projects, collaborate with consultants from other modules, provide end-user training, and support knowledge exchange within the team.

The remote option applies only to the Candidates who will be working from any location in Poland.

See yourself in this role

You are experienced in implementing technical solutions in SAP FI/CO modules with a strong understanding of E2E business processes and systems integration. Your expertise lies in designing, configuring, and implementing SAP FICO and other financial systems and tools, ensuring seamless business alignment and automation. You excel in adapting and providing technical solutions, and you have extensive experience in MEC and YEC activities such as FX valuation, Allocation, and Accrual Engine. Additionally, you possess excellent relationship-building, problem-solving, decision-making, project management, and conflict

resolution skills.

What Youll Do

Receive and evaluate stakeholder requirements

Develop and enhance processes in SAP S/4 HANA, aligning them with business needs

Transform functional specifications into technical solutions using SAP core capabilities

Manage small to medium projects, including planning, solution design, development, and implementation of technical solutions

Collaborate effectively with consultants from other modules, such as SD and MM

Provide end-user training and support knowledge exchange within the team

Work independently, acting as a subject matter mentor for junior team members

What You Have

Several years of professional experience implementing technical solutions in SAP FI/CO modules

Strong understanding of E2E business processes and systems integration

Experience in designing, configuring, and implementing SAP FICO and other financial systems and tools

Extensive experience in MEC and YEC activities, including FX valuation, Allocation, and Accrual Engine

Excellent relationship-building, problem-solving, decision-making, project management, and conflict resolution skills

S/4 HANA experience

Familiarity with additional SAP modules such as Group Reporting and Intercompany Matching and Reconciliation

Ability to present and communicate fluently in English, with German language proficiency being a plus

Nice to have

Proficiency in German

We Offer
