

Security Architect - Remote Poland

[Apply Now](#)

Company: Akamai

Location: Poland

Category: computer-and-mathematical

Would you enjoy working with cutting-edge web security systems?

Does the prospect of being part of a team defending against security attacks excite you?

Join our Security Team

Our Team provides managed services and proactive and reactive support to our global customers. We utilize tools, process and knowledge to integrate and maintain Akamai security, media, and performance solutions for our clients. We collaborate to solve problems, innovate to provide creative solutions and work to continuously improve for our customers and our team.

Partner with our enterprise customers

As a member of our Services team, you would be responsible for all the technical aspects of delivering security solutions. From integration, to maintenance and optimization, working closely with cross-functional teams throughout to ensure the highest quality outcomes.

As a Security Architect, you will be responsible for:

Owning the technical aspects of integration (configuration, debugging, documentation, testing, go-live) of our Security Solutions

Analyzing customer traffic as well as systems and implementing Akamai security solutions to answer customers' security issues

Collaborating with a cross-functional project team to scope and create technical solutions and support the implementation

Participating in ongoing training initiatives to up-skill yourself and to train others

Do what you love

To be successful in this role you will:

Have experience in web security projects and understanding of modern web attacks

Demonstrate understanding of web protocols such as DNS, HTTP, TLS, TCP/IP

Have experience using Linux, scripting and log analysis

Have experience providing technical solutions and support to an enterprise Business-to-Business [B2B] customers

Show proactivity and work with a sense of urgency with a constant desire to learn

Possess great communication skills including ability to explain complex technical content in English

Work in a way that works for you

FlexBase, Akamai's Global Flexible Working Program, is based on the principles that are helping us create the best workplace in the world. When our colleagues said that flexible working was important to them, we listened. We also know flexible working is important to many of the incredible people considering joining Akamai. FlexBase, gives 95% of employees the choice to work from their home, their office, or both (in the country advertised). This permanent workplace flexibility program is consistent and fair globally, to help us find incredible talent, virtually anywhere. We are happy to discuss working options for this role and encourage you to speak with your recruiter in more detail when you apply.

what makes Akamai a great place to work
