

## Senior Cloud DevOps Engineer - Alcon Vision Site (AVS)

[Apply Now](#)

Company: PL18 Alcon Polska Sp. z o.o. Company

Location: Warsaw

Category: computer-and-mathematical

### About the Role:

Join our vibrant team and play a crucial role in shaping Alcon's Digital Cloud Products for ophthalmic medical devices. You'll design, manage, and improve cloud-based solutions, leading the way in automating pipelines, ensuring system resilience, and streamlining development processes. This role combines project management with hands-on technical expertise, making it perfect for someone passionate about cloud technology and its impact on healthcare.

### Responsibilities:

Build and manage cloud-based solutions (AWS + On-prem) for SaMD (Software as a Medical Device) & SaaS applications.

Automate pipelines and environments for faster development, integration, deployment, and monitoring.

Enhance system resilience and security by proactively identifying and addressing issues.

Drive automation across all aspects of solutions and development infrastructure.

Contribute to solution architecture, requirements gathering, and process improvement.

Share best practices in cloud, DevOps, SRE, and related areas.

Design and deploy assets/code in an Agile environment for cutting-edge services.

Provide operational support for DevOps-developed services.

Collaborate on incident response plans and participate in the full development lifecycle.

### **Qualifications:**

Bachelor's degree + 5+ years of relevant experience.

Experience with infrastructure configuration, monitoring, automation tools (Terraform, Puppet, Ansible, Chef).

Proven experience in designing/developing infrastructure, configuration, and deployment automation at scale.

Proficiency in scripting languages (Bash, PowerShell, Python).

Hands-on experience with cloud technologies (Kubernetes, serverless).

Strong communication and collaboration skills.

### **Bonus Points:**

Understanding of large-scale software-defined network management.

Broader IT experience with successful project participation.

Familiarity with virtualization, storage, and networking technologies.

AWS certification (Solutions Architect/Developer).

Software development experience (Python, Ruby, JavaScript, Java, C++, C#).

### **Why Alcon?**

Work on cutting-edge technology revolutionizing Eyecare.

Join a collaborative and innovative team.

Make a real difference in people's lives and help them see brilliantly!

### **Ready to Join Us?**

Apply today and help us transform the future of Eyecare!
