Senior Fullstack Developer

Apply Now

Company: Dotlinkers

Location: Poland

Category: computer-and-mathematical

We are looking for a Senior Fullstack Developer who will join our client team. The company is a provider of enterprise cloud-based communication products for organizations of all sizes. Their CPaaS offering incorporates business messaging over multiple channels, cloud-based call center services, and AI-enabled automated chatbots. Integrating all communication products in a single platform enables businesses to easily engage their customers at every stage of the customer lifecycle. They are also a wholesale supplier of voice and text services, providing an optimized Voice and A2P SMS termination network with worldwide coverage for their telecom customers.

Requirements:

4+ years of commercial experience with the backend;

3+ years of experience with Go lang;

1+ years of experience with modern FE frameworks (React.js, Vue.js, Angular);

Strong knowledge of JavaScript;

Experience with SQL and NoSQL databases;

Ability to work independently and in a team environment.

Nice to have:

Experience with TypeScript;

1+ years of experience with Node.js;

Experience with React.js;

Experience with MariaDB, MongoDB, Redis;

Knowledge of Scrum methodology.

On a daily basis:

Participation in designing and developing new features and projects. It'll help to find and realize new development opportunities;

Performing demos to stakeholders along with your team;

Investigating, diagnosing, and resolving product issues. So that they are always aiming to improve our product;

Participation in the potential teammates' interviews, their onboarding, and mentoring process (if you wish).

The offer:

Competitive salary

20 paid days off

15 days paid of sick leaves
