

## Senior Game Developer (New Opportunities)

[Apply Now](#)

Company: Sigma Software

Location: Poland

Category: computer-and-mathematical

### Overview

#### Required skills

JavaScript / strong TypeScript / strong HTML/CSS / strong PixiJS / good English / strong

Are you an active and enthusiastic Senior Game Developer with experience in the gambling/gaming domain? Are you passionate about ensuring top-notch product quality?

If you're ready to take on new projects, lead teams, and deliver exceptional software solutions, we have an exciting opportunity for you to join our dynamic team.

#### PROJECT

We are a team of 100+ professionals. We are very different, since we are Java enthusiasts, JavaScript adherents, Haxe followers, Unity gurus, Python ninjas, C++ fans, DevOps advocates, and more. Nonetheless, few things make us a true team: sincere addiction to work, friendliness, and inexhaustible optimism no matter what! We are always ready to give a helping hand to those who need it, and we love to discover something new every day – would it be technology to learn, a process to implement, or a new tasty place to visit together with the team.

We are creative and talented. At the same time, we love when everything is in order, well-planned, and well done. We use Agile with technical excellence on the place and Kanban approaches to do a great work and make Customers happy.

We love games, and play them all our lives – web and mobile games, board games, outdoor and sporting games. Therefore, we know how to make games that engage and entertain!

#### Requirements

## **Requirements**

Experience in slot games development

Strong level in JavaScript / TypeScript / HTML / CSS

At least 3 years of Pixi.JS practical usage

Experience with Adobe Photoshop, Adobe Animate, and Spine

Strong knowledge of OOP and SOLID principles

Knowledge of basics and principles of game development using modern TypeScript

Good understanding of multiple design patterns (MVC, Singleton, Observer, Decorator, Chain of responsibility, Abstract factory, etc.)

Good knowledge of QA and QC processes (suite concepts, test case/suite concepts etc.)

Upper-Intermediate English

WOULD BE A PLUS:

Experience in crash games development

Understanding of casino games mathematics

Knowledge/experience with WebGL and 3D

Examples of your pet projects

## **Responsibilities**

### **Responsibilities**

Collaborate with clients to understand their vision and requirements for new game development projects (with the help of PM and other teammates)

Develop accurate project estimates

Assemble and lead cross-functional teams to execute projects effectively and efficiently

Provide technical guidance, mentorship, and support to the development team. Ensure adherence to best practices to achieve high-quality deliverables

Maintain a high level of organizational skills to keep projects on track and within scope
