

Senior Hybris Software Engineer (#5)

[Apply Now](#)

Company: N-iX

Location: Poland

Category: computer-and-mathematical

Work type:Office/Remote **Technical Level:** Senior **Job Category:** Software Development

Project: Office Depot

We are looking for a Software Engineer who is a hands-on developer and is responsible for creating software solutions that will help grow as a business. Use your talent to innovate and transform complex concepts into clean, simple solutions. Determine operational feasibility by evaluating analysis, problem definition, requirements, solution development, and proposed solutions.

About the client:

Our customer is an office supply retailing company which employs about 38,000 associates and operates 1,400 retail stores, e-commerce sites and a business-to-business sales organization. Across the job areas of retail, sales, supply chain and corporate, the company makes transformation of their product to the new level.

Main responsibilities:

Write well-documented, highly maintainable and performing code, with appropriate test coverage

Investigate and resolve application issues, bottlenecks and inefficiencies

DevOps process support and operations as shared team responsibility

Conduct and participate in code reviews that span multiple languages and applications

Supports and develops software engineers by providing advice, coaching, and feedback as well as

conducting design sessions, assisting in code deployments and day-to-day operations

Regularly dive into architecture, code, test plans, project plans, etc.

Participate in Agile Ceremonies to provide feedback and communicate issues/blockers and communicate project status

Daily communication with team members on the client and N-iX sides

Requirements:

4+ years of J2EE experience using an Ecommerce application framework

Prior experience working in a large eCommerce application is preferred

Experience with Hybris (18.08)

Hands on experience with Java 11

Experience in Spring, Hibernate, Hybris Webservices

Strong cross-functional team player, ability to work effectively with technical & business contacts

Knowledgeable on DevOps process (CI/CD stages, gitflow, devops as shared responsibility)

Experience with Apache, Tomcat, and SQL, including complex HSQLDB queries.

Working knowledge of Jira/Bitbucket/Bamboo

Good English and communication skills

We offer:

Flexible working format - remote, office-based or flexible

A competitive salary and good compensation package

Personalized career growth

Professional development tools (mentorship program, tech talks and trainings, centers of excellence, and more)

Active tech communities with regular knowledge sharing

Education reimbursement

Paid vacation days, sick leaves, and days off

Healthcare & Sport program

Medical insurance

Memorable anniversary presents

Corporate events and team buildings
