

Senior Java Developer

[Apply Now](#)

Company: Epm

Location: Poland

Category: computer-and-mathematical

Description

For our client, one of the largest investment banks in the world, we're looking for a Senior Java Developer.

This position offers a hybrid model, with 3 days per week working from the Customer office in Wroclaw or Krakow.

SEE YOURSELF IN THIS ROLE

In our agile operating model, crews are aligned to larger products and services fulfilling client needs and encompass multiple autonomous pods.

You'll be working on internal tools in one of the multi-national teams focusing on enhancing current risk models, continuous improvement, and transition of future state risk models to the cloud.

#java-finance

What You'll Do

Be an advocate for the team to ensure we build the right solution

Design, develop, and improve the digital products and technology services we provide to risk managers, quants and other key stakeholders

Apply a broad range of software engineering practices, from analyzing user needs and developing new features to automated testing and deployment

Ensure the quality, security, reliability, and compliance of our solutions by applying our digital principles and implementing both functional and non-functional requirements

Build observability into our solutions, monitor production health, help to resolve incidents, and remediate the root cause of risks and issues

Understand, represent, and advocate for client needs

Share knowledge and expertise with colleagues, help with hiring, and contribute regularly to our engineering culture and internal communities

What You Have

5+ years of experience as Java Developer

Ability to draw up target architectures and collaborate across teams to drive the solution

Extensive experience in multithreading and good understanding of microservices based architecture

Know-how to apply standards, methods, techniques, and templates as defined by our SDLC

Ability to produce well-designed clean code following established architectural principles (e.g. DDD, SOLID, TDD)

Ability to deliver solutions in a large-scale enterprise environment that are robust, supportable, and scalable

Experience with cloud technologies will be a plus (Azure preferred)

We Offer

We gather like-minded people : Friendly team and enjoyable working environment

Engineering community of industrys professionals Flexible schedule and opportunity to work remotely within Poland Chance to work abroad for up to 60 days annually Relocation within our 50+ offices

We provide growth opportunities Outstanding career roadmap Leadership

development, career advising, soft skills and well-being programs Certification (GCP, Azure, AWS) Unlimited access to LinkedIn Learning Language classes on English and Polish for foreigners

We cover it all : Stable income Participation in the Employee Stock Purchase Plan Referral bonuses Benefits package (health insurance, multisport, shopping vouchers) Corporate and social events

We may contact chosen candidates only
