Senior Java Developer (with German)

Miejsce pracy: Poznań

Technologies we use

Expected

Java

Spring Boot

AWS Cloud

Hibernate

SQL

Jenkins/Gitlab

About the project

Our development teams build and develop software based on the maximum and intelligent use of Java technology. We support world leaders in the automotive, manufacturing, commercial, distribution, telecommunications, energy and public sectors.

We cooperate with experienced experts from all over the world, which provides a wide opportunity to deepen technical and business knowledge. It also allows you to acquire professional programming competences while maintaining the Clean Code principle.

Your responsibilities

creating modern applications for external clients using Java technology;

creating solutions for clients based on design and architectural patterns using the following approaches: DevOps, Domain-Driven Design, Behavior-Driven Development, TDD and Infrastructure as a Service/Code.;

working in international teams using our best practices and agile methodologies (e.g Scrum, SAFe, Kanban);

development around professional software development, Clean Code, etc.;

close cooperation with experienced experts, and thus also obtaining extensive opportunities to deepen technical and business knowledge and interpersonal skills.

Our requirements

4 years of experience as a Java Developer;

practical experience in software development using Java technology (JEE, Spring Boot, Hibernate);

skillful preparation of unit tests;

knowledge of SOLID principles when creating code (CLEAN CODE principle);

knowledge of Java 8+, Maven, Unix, Linux, Github, Bitbucket technologies;

experience in designing REST APIs and implementing RESTful services and in designing databases using SQL, Oracle/SQL Server, Redis;

fluent knowledge of English;

knowledge of German at a communicative level (min. B1).

Optional

knowledge of Front-End technologies will be welcome: JavaScript, TypeScript, Angular, React, Vue.

What we offer

permanent employment contract from the first day;

hybrid, flexible working model;

equipment package for home office;

private medical care and life insurance;

access to our NAIS benefit platform;

possibility of using increased tax-deductible costs in the case of creative work.

Benefits

private medical care

free access to Udemy Business account with ability to use during and outside working hours.

Capgemini Polska

Being one of us means constant development among other great people. It's a team who you want to spend time with, during and after work. Trainings and initiatives make your daily tasks more interesting, fun, and unique.
Software Center is a part of Capgemini Group.
We support our clients, using the knowledge, experience, and engagement of our specialists. Our offices are located in Wrocław, Poznań and Gdańsk. We realize projects from many branches – from logistics, automotive, entertainment branch, to public and chemical. We are experts in many technologies, i.e., Java, Cloud, .NET, React or testing.
We do not stay in one place, we keep on learning, and we stay open for innovations. As a good team we support each other, our candidates, our clients in achieving the future they dream about.

Would you like to discover a world of unlimited possibilities and continuous innovation?

It's time to #Get the Future You Want!

Your life is in your hands, and you have the opportunity to improve it, develop yourself, and simply — join us.
