Senior OneStream Administrator

Remote Poland, PolandOLX – Engineering /Full-time /Remote **WELCOME TO OLX, we work together to build a more sustainable world through trade** .We make it safe, smart, and convenient to buy and sell cars, find housing, get jobs, buy and sell household goods, and more. Our colleagues around the world help to serve millions of people around the world every month, through its well-loved consumer brands including OLX, Otomoto, Property24. **Join OLX and see how far you can go** We are currently seeking an OneStream Administrator/Developer to join our Statutory and Consolidation technology team. This team plays a crucial role in supporting the Group Reporting, FP&A (financial planning and analysis) and Finance departments during the month-end close processes and the planning cycles.As OneStream Administrator/Developer, you will work closely with various stakeholders, managing global statutory reporting and consolidation solutions. You will also be responsible for developing new functionalities in the statutory reporting landscape.

What will you do?

Serve as OneStream subject matter expert for daily maintenance, operations and support of OneStream application features such as consolidations and account reconciliations (e.g. business rules, forms, workflows, cube views, member formulas);

Interact with Global reporting and FP&A teams to understand, define, analyze, and deliver customer requirements;

Discover, design, build, test, and implement new OneStream solutions and continuous

improvement of current processes (e.g. marketplace solutions);

Create and maintain business rules and transformation logic for integrations with ERPs and other source systems (e.g. Anaplan), which might require hands-on coding and testing;

Evaluate impact and support releases, patches, upgrades and enhancements of OneStream application;

Ensure compliance with IT General Controls and change management processes and procedures;

Create and maintain technical documentation and support procedures;

Support user training.

What can you expect?

A key role in the functional activities described above;

Ownership of dedicated processes/functionalities in the defined area;

Partnership with mid and senior management;

Competitive salary package and benefits;

Hybrid work model;

Access to the best on-demand trainings on the market

What will you need to be successful in this role?

Bachelor's Degree in Finance, IT, Engineering, Computer Science;

Minimum 1-2 years' experience with OneStream application development;

Proven experience with business rules, forms, workflows, cube views, custom calculations, and data integrations using OneStream software;

OneStream Certification is a plus;

Sound finance knowledge, understanding statutory reporting, planning processes and allocations;

Excellent analytical, critical thinking and problem-solving skills, including data reconciliation, are required;

Excellent team player, able to develop strong relationships with colleagues and peers;

Comfortable working in a fast-paced and dynamic business environment;

Ability to work under low supervision, being self-driven;

Strong communication skills and good, communicative English [B2 is a must] and ability to communicate technical topics in a simple way to non-technical audience;

You like what you do and take care of having fun of it

Cherry on top

Experience with OneStream integrators including APIs;

Experience working with Anaplan

Why join OLX? At OLX, we invest in ourselves and each other to reach our full potential. We avoid bureaucracy and empower our teams to innovate; with opportunities, training, and leadership behaviors a key focus for all. Our commitment to inclusion ensures we listen to a diverse range of voices when making decisions. And, we combine the spirit and agility of a startup with our global scale and the backing of Prosus, one of the largest consumer internet groups in the world.
