

## Senior/Principal Python Developer (AdTech)

[Apply Now](#)

Company: Sigma Software

Location: Poland

Category: computer-and-mathematical

### Overview

#### Required skills

Python / strong JavaScript / strong English / strong

We are looking for a Senior Python Developer to join the AdTech project that helps publishers control Ad traffic revenue. Together, we will use a unique approach to identify winning strategies quickly and scale them efficiently.

Bring your expertise to our dynamic and forward-thinking environment!

#### Customer

Our client provides a solution that helps publishers control Ad traffic revenue. During the first stage of development, the main platforms for the interaction will be Facebook Ads, OB Media, and Zemanta. Our main development goal is to build the system based on the “code-less” concept so the system will be self-supportive.

#### Requirements

##### Requirements

6+ years of experience with Python (FAST API)

Good knowledge of JavaScript (TypeScript, React)

Experience with AWS

Ability to work independently

At least an Upper-Intermediate level of English

Focus on simplicity and quality

Excellent problem-solving skills

Good communication skills

### **WOULD BE A PLUS:**

Experience in the AdTech domain

Experience with Facebook Ads/Zemanta/Taboola

### **Responsibilities**

#### **Responsibilities**

Writing clean, efficient, and maintainable code in Python

Implementing APIs and integrating external systems

Designing, optimizing, and managing SQL database modules

Performance improvement and code optimization

Covering code with unit tests
