Company: SymphonyAI

Location: Poznań

Category: computer-and-mathematical

Introduction This is a fantastic opportunity to support an international team working with innovative Artificial Intelligence solutions and top tier retailers. ReTech Labs, Inc., a part of SymphonyAI Retail Group, was founded in 2015 with the objective of making complex retail simple through people, technology, and passion. The company has seen rapid growth over the short period and has presence in the US, Asia, and Europe. Over the last year our team has built compelling solutions leveraging the latest technology in our quest to make for a better tomorrow for consumers and retailers.

Job Description As a backend developer you will become part of the development team of the flagship product of ReTech called Store Intelligence – a machine learning platform which drives retail automation. You will be developing features in coordination with mobile and frontend teams, working closely with talented backend leads with 10+ years of experience. As part of the international team you will be communicating in English on a daily basis. Our backend developers solve complicated tasks and always grow as professionals.

Main tasks: Backend development of the company's flagship product MS1 Store Intelligence (<https://retechlabs.com/rebotics/>) using Python 3.11 / Django 4.2; Participation in architecture design; Conduct and participate in code reviews to ensure code quality and adherence to best practices.

Professional skills: Minimum 4 years of professional experience in Python development. At least 2 years of hands-on experience with Django and Django REST framework. Proficient with relational and non-relational database systems such as PostgreSQL, MySQL, Redis, etc. English B1 and above; Understanding SQL; Understanding of development principles, RESTful APIs, and MVC architecture; Experience with version control systems, particularly GIT; Experience writing unit tests;

Additional Skills: Experience with Pandas; Experience with cloud services, preferably AWS; An interest in learning and understanding the business logic behind our products. We offer: Flexible working time; Experienced and distributed international team; Professional growth opportunities; Education opportunities; Informal and comfortable working atmosphere. Why Join Us? Be part of innovative and fast-growing AI technology company; We are a Company with stable and profitable growth; Global experience – your peers and future friends in six countries. About Us SymphonyAI is building the leading enterprise AI SaaS company for digital transformation across the most critical and resilient growth industries, including retail, consumer packaged goods, financial crime prevention, manufacturing, media, and IT service management. Since its founding in 2017, SymphonyAI today serves 1500+ Enterprise customers globally and has grown to 2,500 talented leaders, data scientists, and other professionals across over 20 countries.
